DRAFT text 2nd Ex of interest for Health PC 11-5-2020.pdf

Hoi (10)(2e)
Ik werd hierop geattendeerd, iets om op in te springen met BBMRI?
Groet, (10)(2e)

FYI

@ (10)(2e) iets voor L&G?:
Setting up pan-European COVID-19 cohorts united against the pandemic
- Cohorts with both infected and non-infected individuals, which will provide vital information for health policies in disease management and preventive and protective strategies and disease management.
- Cooperation with national and/or European biobanks, such as BBMRI as well as global initiatives would be welcomed.

Voor KZG is deze wel interessant:
Social and economic impacts of the outbreak response and mental health
