Hi 5.1.2e
Mooi artikel geworden!
Ik zit even met de funding statement (the study was funded by Vion). This is only partly true I would say (the environmental sampling, but not the samping of workers which was funded and performed by GGD/RIVM). So I think we need be make this differentiation.
All the best, 5.1.2e

Subject: Manuscript SARS-CoV-2 slaughterhouse transmission environment

Dear co-authors,

Many thanks to all for your feedback! Hereby the updated version of the manuscript
'Potential environmental transmission routes of SARS-CoV-2 inside a large meat processing plant experiencing COVID-19 clusters'
As we want to submit it to EID (word count max 3500), the text has been considerably condensed and methodological details moved to the supplements.

I am planning to submit the manuscript on Tueday 25th, if you have any comments please send them before then.

Some requests, could you please:
- check your affiliation/add your affiliation (p1)
- put in your ORCID if you want to include this (p1)
- if you have any (potential) competing interests, describe this in the COI statement (p2)
- if you have information on funding to include, add this in the 'funding' paragraph (p2)

Thank you in advance;

Best,

5.1.2e
