Hi [redacted] 5.1.2e and [redacted] 5.1.2e

I hope you are both well. Are you able to review this version of the manuscript? I have attached the latest version with [redacted] 5.1.2e and [redacted] 5.1.2e comments. No problem if it is not possible to look at this version as your feedback on the next version would still be great.

I am planning to share on a cleaned version to the group tomorrow afternoon.

Best regards,

[redacted] 5.1.2e

H [redacted] 5.1.2e

Thanks for this, I think it reads very well. Attached some suggestions/questions. Especially the ventilation part requires some more discussion I think.

Dear all,

Please use this version for any feedback or comments. I have made some minor updates including a footnote in the epi-curve figure.

Best regards,

Dear all,

Thank you for your feedback. Please find attached a revised version of the manuscript. Kindly let me know if you have any feedback or comments on this version.

We can discuss any important points on Thursday.

Have a good evening,

5.1.2e

Hi 5.1.2e

I added a few things in the last version with the comments of 5.1.2e and 5.1.2e in it, saved it in the folder.

Dear all,

Please find attached an updated working draft of the manuscript. Pending the sequencing results, any additional questionnaires from the Mussel Church Service, and any additional ventilation modelling results.

A couple of questions in there if we have time to discuss this afternoon.

Also, as we are aiming for a Eurosurveillance Rapid Communication, I believe the word count is around 1200, any suggestions on how to cut down the text would be great too!

Best regards,

5.1.2e

Hi 5.1.2e

Thanks for a good start. Attached some comments which could help for a next version. You could already put it in the format of a Eurosurveillance outbreak investigation paper.
