Netherlands

Please scan with your mobile device
for a brief overview of our proposed
partnership from our CEO.

Dear Hugo de Jonge:

My name is [REDACTED] 5.1.2e. I am a licensed attorney in the United States and the [REDACTED] 5.1.2e and [REDACTED] 5.1.2e of ERI Global, Inc. located in New York, NY.

ERI has contracted with over 400 Hospitals and many of the Top 30 healthcare systems in the United States and have recovered over \$500M in revenue for them in found reimbursements.

ERI began from my deep passion for the Healthcare industry and has grown into a very large corporation which assists Healthcare providers realize the maximum amounts of revenue in which they are entitled to provide the best possible healthcare to their patients nationwide.

The reason I am writing to you is because Eri Global is progressively impacting the world in terms of COVID-19 by creating COVID-19 Clinics in major airports for testing and administering vaccines. Apart from the healthcare aspects of COVID-19, this virus has devastated the Global economies and we have developed an action-plan to test and cure citizens globally as well as re-vitalize the global economic landscape.

As you may be aware, the Center for Disease Control ("CDC") is now requiring a PCR Test from abroad in order to enter the United States.

<https://www.wsj.com/articles/the-new-covid-19-testing-rules-for-travel-to-the-u-s-what-they-mean-for-you-11610566341>

We are working with various Government leaders in other countries to create PCR testing in all their major airports, train stations and bus stations to encourage people to begin and continue traveling to reinvest in the world's economy again. We are interested in opening-up PCR testing in all major airports of Netherlands as well.

We also are in discussions with some of the largest pharmaceutical companies offering COVID-19 vaccinations as well as global freight and logistics companies to partner and administer the vaccines in our "COVID Clinic" airport testing sites. I am confident that our interests are aligned in terms of preventing and curing this global pandemic and would like to discuss a strategic partnership together to have our "COVID-19 Clinics" in all major airports of Netherlands.

One World Trade Center, 85th Floor, New York, NY 10007
Office: (212) 220-8448 / Fax: (646) 887-6238

Eri Global

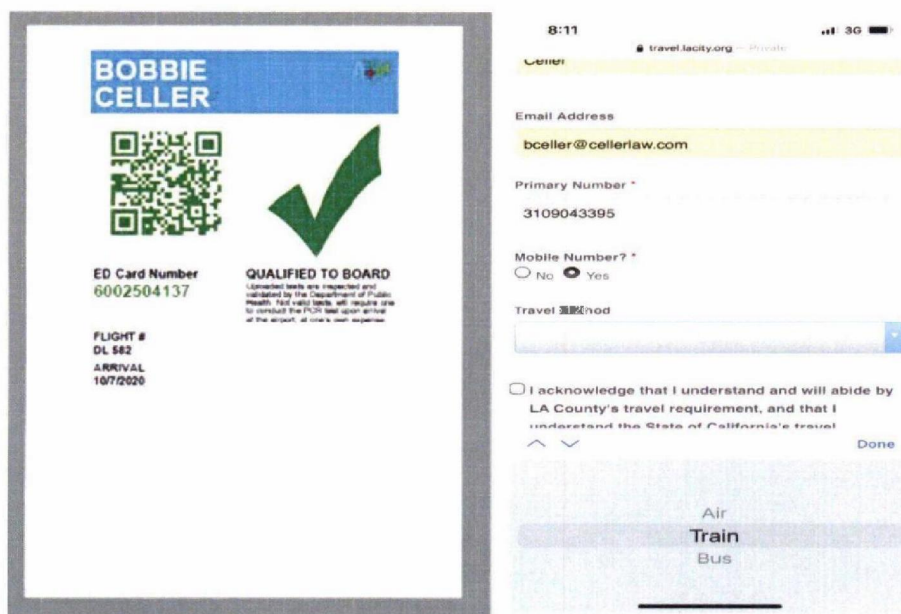

I believe by partnering together, we can jointly serve as a catalyst for testing, curing, and eradicating this COVID-19 pandemic in order to re-vitalize global economies once again.

Our mission is to create a “Global COVID-19 Healthcare Initiative” that will provide a safe and easy solution for travellers looking to enter and/or exit each State and Country while positively impacting the state’s revenue for tourism, business, and overall economic survival.

As you can see from the image below from my travels to Aruba, we would set-up a similar QR Code on our platform which provides approvals/denials based on the test results and transmit the information directly to the citizen/traveller.

In addition, we have developed a new proprietary software application which allows patients to pre-register for their tests and electronically sign all admission documentation (similar to DocuSign for healthcare) in order to expedite the medical testing sought upon arrival.

These travellers would be required to provide their negative test results upon entry into Netherlands via our QR Smart Code Technology whether arriving by airplane, train, bus or rental car agency and/or any other mode of transportation requiring a “check-in” process.

One World Trade Center, 85th Floor, New York, NY 10007
Office: (212) 220-8448 / Fax: (646) 887-6238

Eri Global

I would like to arrange a Zoom meeting to discuss this opportunity over the next few weeks.

I have included our capabilities presentation/slide-deck of how our DreamSpectre™ technology is transforming and revolutionizing global healthcare with our COVID-19 Clinics and our QR Smart Code Technology.

Please let me know who I would need to meet with to explore this partnership and positively impact the citizens of Netherlands as well as all other global citizens of the world.

DreamSpectre™

Capabilities Presentation

DreamSpectre™ Private Media Platform

"Unleashing your Dreams"

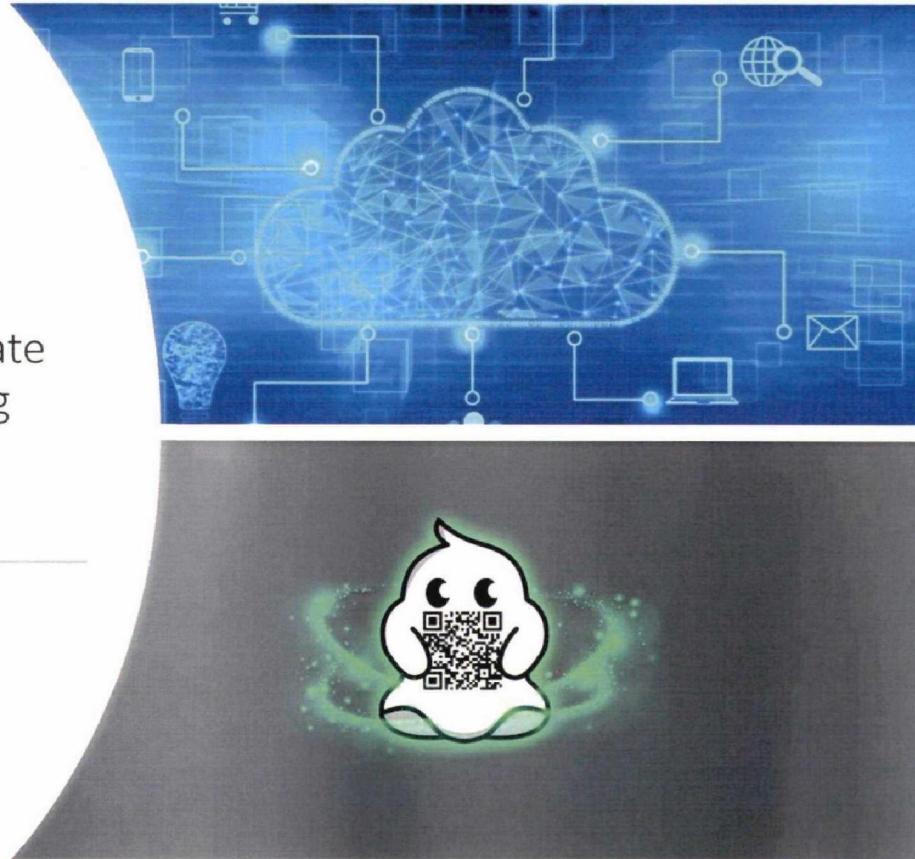

- Introduction
- Background of DreamSpectre™ and Market Need for a Private Media Platform utilizing our QR Smart Code Technology
- Value Proposition
- Customers and Market
- Competition
- Strategic Control
- Improvements and growth
- Management

Introduction

- History has shown us that if people and companies do not evolve, that is the beginning of the end. Companies such land-line phone companies, the printing industry and large vehicle manufactures such as Hummer (until their recent electric Hummer-EV transformation) have all been extinct due to their lack of innovation. In order to survive and thrive in this economic climate, companies must transform with disruptive technologies.
- The most disruptive companies
- In a survey of over 740 technology industry business leaders globally, Amazon, Apple, and Alibaba were named as the most disruptive companies that tech industry leaders worry most about disrupting their businesses. Other technology firms, such as DJI, Google, Netflix, Airbnb, Microsoft, Facebook, and Baidu, round out the top 10 list ([see the full list](#)).
- <https://home.kpmg/uk/en/home/insights/2019/10/the-most-disruptive-companies-and-business-models.html#:~:text=In%20a%20survey%20of%20over,must%20about%20disrupting%20their%20businesses>

Background of
DreamSpectre™ and
Market Need for a Private
Media Platform utilizing
our QR Smart Code
Technology

BACKGROUND:

BACKGROUND AND VISION:

Ever since the COVID-19 pandemic swept the world, QR codes have been utilized more than any other type of new technology around the globe.

DreamSpectre™'s platform will have the ability to transform healthcare testing, vaccine administration, how overall healthcare is administered and how pharmaceutical drugs are bought and sold as new product roll-outs to healthcare providers or customers by having the ability to pre-register with their physicians and pharmacies to obtain their medication in a fraction of the time and having it delivered through our Quick Response ("QR") Code technology, partners and platform. The practice and supply chain of the healthcare industry will never be the same.

In the Healthcare sector, DreamSpectre is working with local States, Governments and Countries abroad to open COVID-19 testing centers in all major airports around the world leveraging our QR Smart Code Technology to provide faster and safer Healthcare.

The DreamSpectre™ team consists of global business leaders, cutting-edge programmers and development teams, Big data analysts and a strong team of visionary pioneers all working together to create opportunities for countries, private corporations and global citizens by leveraging our QR Smart Code Technology on a private media platform to promote and sell any good or service by any person or corporation.

DreamSpectre™ is the first Private Media Platform of its kind with the primary goal of disrupting every market and bringing value to our countries and partners.

DreamSpectre™ is revolutionizing the way products are marketed, sold and transported across all industries.

Our goals at DreamSpectre™ is to work with every country and increase the imports, exports, goods and services offered by that country and their people to promote global trade on a macro and micro economic level.

DreamSpectre™ will donate the first 10% of revenue generated from each country's business dealings back into that country to solve the country/communities challenges. Whether it is healthcare, food, clothing, shelter or schools, DreamSpectre™ will reinvest in the country to positively impact their people.

DreamSpectre™

DreamSpectre™ is already in contact with all 50 U.S. State Governors and 25% of the countries abroad offering COVID-19 testing centers in all major airports, train stations, bus stations and public transportation ports. Since the CDC announced all persons entering the US after January 26, 2021 will require a negative PCR test, it is our belief that the individual states will soon follow suit for travels. As such, the requirement for testing and vaccination centers will be necessary in all public transportation hubs.

By partnering with DreamSpectre, your organization will be able to offer their COVID-19 vaccinations our in Clinics around the world. In addition, DreamSpectre is partnering with one of the World's largest Global freight and logistics companies which can help deliver the vaccinations and/or other medication through an efficient supply chain.

DreamSpectre™'s payment gateway utilizing our QR Smart Code Technology will allow the patients/consumers to quickly transmit their health insurance information and/or make payment for their required vaccines and medication.

DreamSpectre™ will help bridge the gap between COVID-19 testing and COVID-19 curing.

DreamSpectre™ will save lives, impact families globally, revolutionize global economies by stimulating travel, trade and reinvestment into global countries once again.

DreamSpectre™

DreamSpectre™ platform has created a healthcare pre-registration service where patients can pre-register for healthcare services and help speed the treatment of healthcare. Similar to DocuSign, all healthcare forms will be signed digitally through DreamSpectre™ and shared with the hospital, facility, clinic, physician's office, and pharmacy.

This will also help expedite the registration for COVID-19 pre-screening given the recent Center for Disease Control ("CDC") requirement for any travelers entering the United States to have a negative PCR test within three (3) days of entering the country per the link below:

<https://www.wsj.com/articles/the-new-covid-19-testing-rules-for-travel-to-the-u-s-what-they-mean-for-you-11610566341>

DreamSpectre™ is leveraging global relationships with World-wide governments, it's 400 healthcare system Clients and airports to set-up COVID-19 PCR testing. ERI Global in conjunction with the DreamSpectre™ platform will ship the COVID-19 test kits and/or vaccines to the various airports, help promote safety, travel, economies and help stop the World-wide spread of COVID-19.

DreamSpectre™'s healthcare pre-registration platform will allow physicians and other medical providers to immediately transmit the patient's prescription to their local pharmacy and allow the medication to be delivered to the patient (similar to Uber eats in the food industry).

Travelers would be required to provide their negative test results and/or vaccination confirmations upon entry into any state or country via QR Smart Code Technology whether arriving by airplane, train, bus or rental car agency and/or any other mode of transportation requiring a "check-in" process.

Customers and
Market

Customers and Market

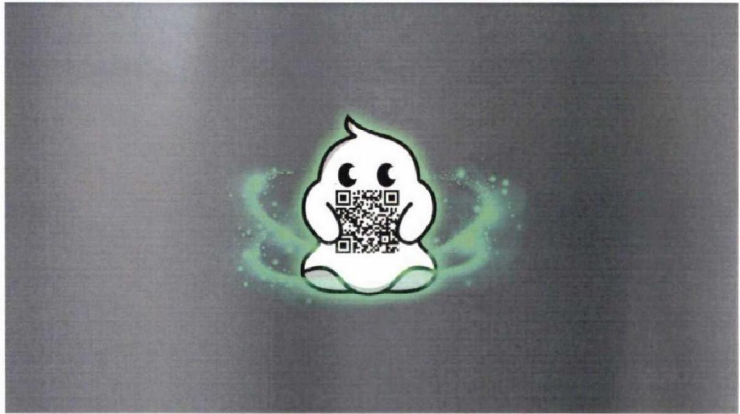

- DreamSpectre™ will disrupt every industry which advertises, markets, promotes and sells any healthcare goods or services online or in stores. Our QR Smart Code Technology is the future, and we are pioneering a new world for global change and revolutionizing every company, business and country we partner with.

Customers and Market

- E-commerce worldwide - statistics & facts
- Published by [Statista Research Department](#), Oct 26, 2020
- Over the last few years, e-commerce has become an indispensable part of the global retail framework. Like many other industries, the retail landscape has undergone a substantial transformation following the advent of the internet, and thanks to the ongoing digitalization of modern life, consumers from virtually every country now profit from the perks of online transactions. As internet access and adoption are rapidly increasing around the globe, the [number of digital buyers worldwide](#) keeps climbing every year. In 2019, an estimated 1.92 billion people purchased goods or services online. During the same year, [e-retail sales](#) surpassed 3.5 trillion U.S. dollars worldwide, and according to the latest calculations, e-commerce growth will accelerate even further in the future.

Competition

Competition

3	JD.com	2019
4	Facebook	2019

Strategic Control

Strategic Control

DreamSpectre™'s technology will be a game-changer in the healthcare, retail, supply chain and transportation industry.

COVID-19 has devastated businesses, economies and families; however, the pandemic did birth a new industry of QR Smart Code Technology and applications to healthcare, pharmaceutical, retail, transportation and virtually every good or service sold.

By Partnering with DreamSpectre™, each country will strategically advance their national healthcare and pharmaceutical systems providing more strategic control over prescription fulfillment, product commercials, physician engagements and overall global drug control supply chain shipping and logistics.

Improvements
and Growth

Improvements and Growth

As DreamSpectre™'s technology is utilized by the masses, DreamSpectre,™ will be strategically positioned to offer other online healthcare services such as:

- Telemedicine
- Drug commercial videos using QR Smart Code Technology
- Pharmaceutical rep engagements via QR Smart Code Technology mailers, presentations and meetings.
- Educational seminars with physicians on new product developments, FDA approvals and roll-outs
- Big data predictability/Artificial Intelligence (“AI”) services with tracking of QR Smart Code Technology
- New creative private media platform for creative content to complete with existing social media sites such as (FB, IG, Snapchat, etc. and/or publish the content to all existing social media sites).

Improvements and Growth Continued

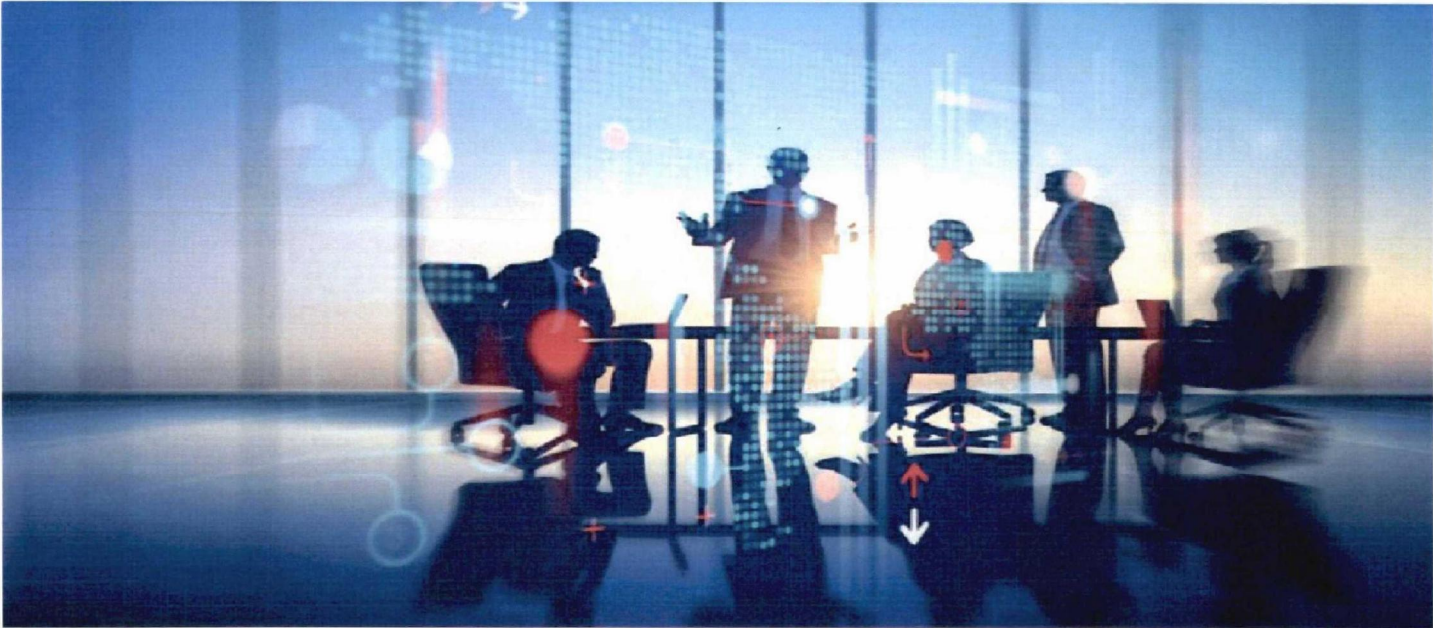

- DreamSpectre™ is working on a Phase II Robotic Nurse with two-way cameras (similar to bank tellers) for COVID-19 self-administered tests.
- The live nurse will instruct the patient on how to extract the sample.
- Once the sample is extracted, the patient will have the ability to drop the sample into the robot which will deliver the sample back to the nurse/lab.

DreamSpectre™'s Carebot a [Turtlebot](#): which it is an open source robot mobile base you can augment.

The patient will be able to insert their sample into the "biohazard container" attached to the Carebot.

It contains [SLAM](#) features (Simultaneous Localization And Mapping, which means it can explore an environment, make a map of it, and give its position on the map) and is controlled and programmed with the middleware [ROS](#).

Management

Management

DreamSpectre™ is managed by Chief Executive Officer (“CEO) Bobbie Celler, Esq., Chief Operations Officer (“COO”) Angeley Cooper and Chief Information Officer (“CIO”) Varun Sharma.

Bobbie Celler, Esq.:

Bobbie is a dynamic, high-performance Attorney and Global Business Leader with a proven ability to build and lead top-flight teams and an aggressive drive for premium results. Broad industry experience with special expertise in business generation automation. Consistently proven to hit the ground running, inspiring others and producing exceptional results within an exceptionally short period of time.

Bobbie Celler has created niche business markets in the legal and healthcare sector by incorporating technology, specialized knowledge of law, medical billing and complex insurance and recovering billions of dollars in medical benefits for his Clients and Partners.

Management

Specialized experiences in healthcare, manufacturing in China and retail and finding gaps in the marketplace to fill and create opportunities for global trade.

Management Skills Include:

- New market penetration
- Start-up ventures
- Creating hybrid opportunities by trending markets
- Leveraging business and legal relationships for market penetration
- Solution-oriented processing
- Author
- National Legal/Business TV Host
- Revenue and profit growth
- Contract negotiations
- Executing Multi-Million dollars deals and contracts
- Licensed Florida Attorney

Management
