Dear [REDACTED] 5.1.2e

Thank you for this feedback. You had already registered for the webinar on 5 November.

Best regards,

[REDACTED] 5.1.2e

Thank you for this wonderful webinar really informative.

[REDACTED] 5.1.2e mentioned the next webinar on November 5th. I might have missed the announcement but can I still register?

Kind regards

Met vriendelijke groet/kind regards

Subject: UPCOMING WEBINARS OF ADVAC ALUMNI

Dear ADVAC Alumni, ADVAC lecturers and other interested participants,

Thank you for registering for the ADVAC October 13 webinar "**Strategies for the deployment of COVID-19 vaccines**".

The ADVAC Alumni meeting will be entirely virtual via the web-based Zoom platform. Below you will find the instructions to connect to the webinar.

It is best if you join the Zoom meeting via internet at the link provided below and that you use the audio of your connecting device/computer. This will allow you to watch the presentation and ask questions. If easier for you, however, you can also connect on the phone using the numbers listed below. Additional international numbers are available in the link below. Unfortunately Zoom does not allow for local/free access numbers for all countries.

Kindly connect 5 to 10 minutes prior to the official starting time of 15:00 (Geneva time) as we will need to start on time. The meeting will end no later than at 17:00. Once you are connected please identify yourself with your **full name**.

The webinar will be chaired by [REDACTED] 5.1.2e .

After a brief introduction, [REDACTED] 5.1.2e from the World Health Organization will deliver an introductory presentation.

Following the presentation, a number of pre-identified discussants from different regions and backgrounds will first be invited to comment and react to the presentation. You will be able to ask questions in writing using the Questions and Answers box/feature of Zoom webinar. We will review the questions and read them on behalf of the person asking the question, and the speaker and discussants will be asked to contribute to answering these questions.

You will be connected on a "listen-in" only link without the means to talk. We apologize in advance but this is to optimize the meeting proceedings in this virtual setting and reduce background interference, and the need to constantly monitor all those connected. Please **do not use the chat box of Zoom** to communicate with us. In this way, it will be easier to better manage the webinar in view of the large number of attendees.

We apologize in advance if all questions cannot be answered due to a lack of time. We will try to respect the order in which the questions arrive and may combine similar questions.

If you have administrative/logistic questions, you can also use the Question and Answers box which will be monitored and answered by [REDACTED] 5.1.2e

We will record the webinar and post the recording together with the separate presentation in the Alumni section of the ADVAC website. After the meeting, we will also send you a link to access the webinar.

We look forward to welcoming you to the webinar on Tuesday, October 13.

With kind regards,

5.1.2e

When: Oct 13, 2020 15:00 Geneva

Topic: Strategies for the deployment of COVID-19 vaccines

You will be able to join the meeting from a PC or Mac or any other mobile devices running iOS or Android (phone or tablet). On a computer, Zoom will work with most of the internet browsers (such as Chrome, IE, Edge, Firefox, Safari).

If you decide to use a mobile device, you are encouraged to download the Zoom app: iOS (Apple)
