Dear 5.1.2e [redacted]

Please find hereby my lecture and the exercises for the breakout rooms. Would you divide the participants into breakout groups of 4?

It is fine to record the lecture, but not exercise 2. I guess the student need to have access to the exercises in the breakout rooms as I cannot share the screen with them.

I shall try to connect on time to makes sure that everything works well.

Best regards, 5.1.2e [redacted]
