Dear 5.1.2e

Please see attached a new version of the APA (clean and compare against the last version we sent to you on 25 September). A couple of points to assist in your review:

5.1.1c

Kindly note we've not been able to incorporate the edits suggested in your last night's rider 5.1.1c 5.1.1c We would very much like the opportunity to discuss with you soonest to better understand the background of the language proposed. Please let us know if that would be possible this morning still. In any case, we would of course been keen to hear if we should prepare for an Evaluation Committee later today.

Kind regards, for the team,
As always, looking forward to speaking to you,

5.1.2e
