population measure: All public events and gatherings with more than 25 persons are prohibited. A maximum of 10 persons at the private gatherings is allowed. Wedding ceremonies are suspended. A maximum of 25 persons are allowed at funerals. In addition to already mandatory masks, occupancy in the means of public transport should not exceed 40 percent of the total seats. Strict adherence to the maximum number of customers in the stores, shops and shopping centers, with appropriate hygiene, ventilation, disinfection points. Fairs are suspended (including adventures). Nightclubs, restaurants and bars are suspended (except hotels). Sports competitions and trainings are suspended (except for athletes of 1st, 2nd and 3rd category professional sports, but no audience is allowed) Choirs, performances of complex stage work such as operas and musicals, dance schools, gym and fitness centers are suspended. Limited activity in the cinema, theater and concerts. Foreign language schools and driving schools will have the theoretical part of teaching exclusively online. As for churches and religious services, there is recommendation of the Mass celebrations broadcast on radio, television and online services, and the maximum of 25 persons attending physically Mass and other religious services. Strongly recommended work from home and work in shifts wherever possible.

travel restrictions/advice: Border police and sanitary border control are identifying persons coming from affected area and subsequently putting them under active health monitoring in duration of 10 days if asymptomatic or referring to designated hospital if present signs/ symptoms consistent with COVID-19. Affected area are defined according to the maps published by ECDC in support of the Council Recommendation on a coordinated approach to the restriction of free movement in response to the

Gentle reminder_monthly_COVID-19 Monitoring and Evaluation Request /

kroatie: Dear colleagues,
as we introduced border measures for persons arriving to Croatia (negative PCR test) today, we are discussing whether to exclude persons who have written evidence of laboratory confirmed COVID-19 in the past. Therefore, I would very much appreciate if you share your national recommendations on this border measure.

Does written evidence of past COVID-19 infection exclude passengers from the requirement to present a negative PCR test or from the requirement stay in quarantine?

Antwoord of actie nodig? (niet elk bericht hoeft beantwoord te worden - bij vragen als 'hoe doen anderen dit' wordt dit in de 'wrap-up' bepaald)	Actie afgehandeld? (ja, met datum, nvt)	Crios casus nummer
