Confidential

Dear (10)(2e)

I am following up on our previous conversation, after we had to postpone our meeting that had been scheduled for last Friday. I understand that we should be able to plan again for next week and I look forward to progressing the conversation.

In the meantime, I am aware that our global organisation are rapidly progressing the development programme and planning for the assets that we had discussed. They have reached out to help their understanding of the government policy here in the Netherlands and latest positions of the Dutch government in relation to the EU. As you will understand there are important decisions for future supply chain investment to be made and I would like to ensure this information is accurate and up to date in such a fast moving environment. I would be grateful if you could help our understanding or put me in touch with the best people to provide this perspective.

Of particular interest:

- In light of the emerging leadership role of the EU, how does the Dutch Govt want to engage with individual companies on future solutions?
- With the announcement of the contract with AZ, what are the implications for further engagement with other companies?

(11)(1)

- How does the Dutch Govt view the relative importance of Time, Safety Profile, Dose and Durability in selecting a future vaccine?

(11)(1)

- Is there an emerging template policy for procurement and pricing?

(11)(1)

- How does the Govt view its role in supporting / securing investment for manufacturing or distribution capabilities?

(11)(1)

As you captured below, I would like us to maintain close communication in the interests of ensuring the right information is made available to our global decision makers. If you would rather schedule a short call in the coming days to discuss these points. I would be more than happy to make the time that works for you.

Many thanks for your ongoing engagement on this important matter.

Your sincerely

(b)(2)(e)

Dear (b)(2)(e) and (b)(2)(e)

It was good to have the call on Friday and to align on our understanding from all sides. Obviously we did not talk explicitly about the news that was announced over the weekend. Would it be possible to confirm if this changes anything we discussed or if there are any elements of the governments evolving policy of which we should be aware as we progress our plans. I look forward to continuing the conversation that we initiated in the coming weeks and we will continue to keep you informed of progress on our side.

All the best in the meantime
