Onderwerp: Facebook May 2020 Coordinated Inauthentic Behavior Report

Our [May 2020 Coordinated Inauthentic Behavior Report](#) is now available. This month, we have removed two networks of accounts, Pages and Groups. One of them - from Tunisia - focused on countries across Francophone Africa, and the other one targeted domestic audiences in the Kurdistan region of Iraq. We have shared information about our findings with law enforcement, policymakers and industry partners.

- Total number of Facebook accounts removed: 253
- Total number of Instagram accounts removed: 240
- Total number of Pages removed: 770
- Total number of Groups removed: 101

You can find the May report [here](#). Previous reports can be found [here](#).

More Information and Authenticity

We have introduced new features to help people better understand who's behind the news they see and the people behind high-reach pages and profiles:

- [Labeling State-Controlled Media On Facebook](#).
- [Verifying the Identity of People Behind High-Reach Profiles](#)

Community Standards Enforcement and Transparency Reports

We published the fifth edition of our [Community Standards Enforcement Report](#), providing metrics on how well we enforced our policies from October 2019 through March 2020. In the future, we'll be sharing the Community Standards Enforcement Reports quarterly, so our next report will be released in August.

The Community Standards Enforcement Report is published in conjunction with our bi-annual [Transparency Report](#) that shares numbers on government requests for user data, content restrictions based on local law, intellectual property take-downs and internet disruptions.
