Sorry dat het met [5.1.2e] niet gelukt is. Het is weer volop crisis op de eilanden. Geldt ook voor [5.1.2e].
 Het komt er vast nog wel een keer.

OK, dank je wel.
 Succes met de opschaling.

Vraagje, is er eventueel nog gelegenheid om Met [5.1.2e] te spreken die een onderzoek doet hoe we onze service kunnen verbeteren?

Als je te druk bent, geen probleem! Is anders [5.1.2e] een optie? Maar die zal ook wel druk zijn. Alle begrip als jullie het laten schieten.

Groet uit zonnig Vaassen. 30 graden vandaag....

Hoi Rolof,

Het lokale lab en RIVM hebben besloten om alsnog het lab duurzaam te versterken en daar gaat ook een week of vier in zitten. Dat heeft de voorkeur.

Groet van zonnig Bonaire.

Beste [redacted]

Dank.

Vraag;

Wij willen gaan kijken bij de leveranciers of we niet snel wat kunnen krijgen als uitzondering. We gaan een rondje bellen. Dan is het wel van belang om te weten om gelijk aan te kunnen geven:

- Hoeveel testen per dag zijn er nodig?
- Moeten wij de consumables (reagens, plastics en testen) ook leveren?
- Leveren wij het lab ook (hebben we staan en snel klaar. Uitdaging zijn de 2 bovenstaande dingen)

Verder:

- Moeten we staff trainen?
- Vliegen of varen?

Hoi Rolof,

Dank voor jullie voorstel. Door de drukte heb ik jullie niet kunnen beantwoorden. We hebben naar jullie voorstel gekeken en het probleem is dat we de capaciteit per direct nodig hebben. Alle voorstellen die we krijgen nemen te veel weken in beslag. Ook jullie voorstel.

Groet,

Regarding your question;

We have more than one 20ft Container Covid19 lab in stock (see attachment). At the moment the PCR equipment has a delivery time of 6 weeks, I will try to see if we can get it quicker. AB testing; looking into that as well.

- When would you need the lab?
- Is there enough budget to fly it in?
- What about consumables?
- How many tests per day?

It can be transformed to a traditional lab later-on.
