IPCR - Contributions to ISAA report no.17 on COVID-19 - Questions

1. Questionnaire 1 - Public health

1.1. Epidemiology

1.1.1. Question

Q1: Please indicate your nationally estimated basic reproduction number (R0).

The current nationally estimated basic reproduction number (R0) is estimated to be (just) below 1.0.

Expected type of value : Text of maximum 1500 characters.

1.1.2. Question

Q2: Please indicate your national estimated relative contribution of reduction of reproduction (R) and/or contact rate by measure (if known).

Contact rates were reduced 64-75% following the implementation of measures (such as social distancing, e.g.: 1.5 meter distancing, teleworking etc). As it stands, the spread of the COVID-19 virus is partly under control. Although the risk has not disappeared, starting May

Expected type of value : Text of maximum 1500 characters.

1.1.3. Question

Q3: Please indicate the % of symptomatic vs asymptomatic.

It is problematic to differentiate between symptomatic and asymptomatic patients in the Netherlands. Not all symptomatic patients are recorded or tested for COVID-19

Expected type of value : Text of maximum 1500 characters.

1.1.4. Question

Q4: Please indicate the % of symptomatic requiring hospitalization.

43.481 individuals have tested positively for COVID-19.
11.457 individuals been hospitalized since the outbreak.

Expected type of value : Text of maximum 1500 characters.

1.1.5. Question

Q5: Please indicate the % of hospitalized requiring intensive / critical care.

43.481 individuals have tested positively for COVID-19.
11.457 individuals been hospitalized since the outbreak.
2.831 individuals required intensive care for COVID-19.

Expected type of value : Text of maximum 1500 characters.

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.1.6. Question
Q6: Please indicate the infection fatality rate.
12.8% of notified cases were reported to have died (based on data up to May 14). This is however an overestimate, in light of the fact the denominator of all infected people is not known.
Expected type of value : Text of maximum 1500 characters.
1.1.7. Question
Q7: Please indicate the prevalence of symptomatic cases. Denominator is lacking.
Expected type of value : Text of maximum 1500 characters.
1.1.8. Question
Q8: Please indicate the attack rate.
This is not known because denominator is not known.
Expected type of value : Text of maximum 1500 characters.
1.1.9. Question
Q9: Please indicate, if available, the % of immunity achieved.
Serological testing shows that 3% of the population in The Netherlands has developed antibodies to the virus (april 2020)
Expected type of value : Text of maximum 1500 characters.
1.1.10. Question
Q10: Please indicate what values should the parameters above have, as criteria for exit strategy?
Expected type of value : Text of maximum 1500 characters.
1.2. Resources shortfalls in response

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.2.1. Question	
Q11: Is your country facing resources shortfalls of medical staff?	
<input type="checkbox"/>	Yes
<input checked="" type="checkbox"/>	No
<input checked="" type="checkbox"/>	Please specify:
Free text for Option n° 3	
At an earlier stage, hospitals (strictly speaking) faced a shortage of ICphysicians. This shortage appears to have been mitigated. Firstly, by transferring in physicians from other disciplines. This was possible because measures are in place to reduce elective	
1.2.2. Question	
Q12: Have you implemented measures to fill this gap? (e.g. medical students involvement, international cooperation, volunteering)	
<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input checked="" type="checkbox"/>	Please specify:
Free text for Option n° 3	
See 1.2.1.	
1.2.3. Question	
Q13: Has your country identified or foresees shortages of the following items?	
<input type="checkbox"/>	Ventilators / respirators
<input checked="" type="checkbox"/>	Personal protective equipment (masks, gowns, goggles)
<input type="checkbox"/>	COVID-19 testing kits
<input type="checkbox"/>	Reagents
<input type="checkbox"/>	Medicines (e.g. paracetamol...)
<input type="checkbox"/>	Disinfectants
<input type="checkbox"/>	Other
<input type="checkbox"/>	Please specify types and quantities:
Free text for Option n° 8	
1.3. National stockpile	

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.3.1. Question	
Q14: Is a stockpile of PPE in place at national level?	
<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input type="checkbox"/>	Please specify:
Free text for Option n° 3	

1.4. National procurement to address gaps	
1.4.1. Question	
Q15: Is your country planning/conducting national procurement procedures for any of the mentioned items? Please	
<input type="checkbox"/>	Ventilators/ respirators
<input type="checkbox"/>	Personal protective equipment (masks, gowns, goggles)
<input type="checkbox"/>	Covid-19 testing kits
<input type="checkbox"/>	Reagents
<input type="checkbox"/>	Medicines (e.g. paracetamol...)
<input type="checkbox"/>	Disinfectants
<input checked="" type="checkbox"/>	Other (please specify)
Free text for Option n° 7	
Some of these procurement procedures are partly in order to be prepared for a possible second wave.	

1.5. Testing strategy	
1.5.1. Question	
Q16: What testing strategy is currently in place in your country? Testing of...?	
<input checked="" type="checkbox"/>	Symptomatic patients
<input type="checkbox"/>	Asymptomatic
<input checked="" type="checkbox"/>	Specific groups (e.g. age / medical condition)
<input checked="" type="checkbox"/>	Please specify:
Free text for Option n° 4	
Previously, testing priority was given to (symptomatic) healthcare workers and vulnerable groups. Currently the testing strategy is being extended (among others teachers, law enforcers and care provider who provide care at home). The Netherlands is envisioning to extend the testing policy to all adults who	

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.5.2. Question
Q17: What testing strategy is planned for the future as part of the exit strategy?
Netherlands is envisioning to extend the testing policy to all adults who show COVID-19 related symptoms in June. According to estimations, this will require approximately 28.000 tests per day in June, increasing to approximately 31.000 tests per day in September
Expected type of value : Text of maximum 1500 characters.

1.5.3. Question
Q18: Are you using / planning to use rapid tests / serological tests?
<input type="checkbox"/> Yes, antigen tests
<input checked="" type="checkbox"/> Yes, antibody tests
<input type="checkbox"/> No
<input checked="" type="checkbox"/> Please specify:
Free text for Option n° 4
Antibody tests are used in the Netherlands, mainly for research purposes. The number of antibody tests that is expected to be used in the near future in the Netherlands is still uncertain.

1.6. Laboratory capacity

1.6.1. Question
Q19: How many laboratories are able to test for COVID-19 and how many tests can be performed per day? Please indicate planned scale up in testing capacity.
Tests are currently performed in 45 labs. Testing capacity is being scaled up to facilitate 28.000 tests per day in June.
Expected type of value : Text of maximum 1500 characters.

1.6.2. Question
Q20: How many RT-PCR tests have you performed weekly since the beginning of the outbreak in your country? Please respond indicating number of tests per calendar week.
Week 14: 29.098 Week 15: 38.960 Week 16: 40.102
Expected type of value : Text of maximum 1500 characters.

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.6.3. Question	
Q21: Has your country identified shortages in lab staff?	
<input type="checkbox"/>	Yes
<input checked="" type="checkbox"/>	No
<input type="checkbox"/>	Please specify what measures have been implemented to address these gaps
Free text for Option n° 3	

1.7. Case management

1.7.1. Question
Q22: How many Intensive Care Units for COVID-19 patients are available in your country?
The maximum of total effective IC-units is estimated at 2500 (both COVID and non-COVID). While it is possible to add more 'beds' or 'units' after that point, a shortage in (nursing) staff is anticipated.
Expected type of value : Text of maximum 1500 characters.

1.7.2. Question
Q23: What % of Intensive Care Units are currently occupied with COVID-19 patients?
As of this morning, May 15th, 353 IC-units are occupied with COVID-19 patients.
Expected type of value : Text of maximum 1500 characters.

1.7.3. Question
Q24: How many additional Intensive care beds can you set up as surge capacity?
The maximum of total effective IC-units is estimated at 2500. While it is possible to add more 'beds' or 'units' after that point, a shortage in (nursing) staff is anticipated.
Expected type of value : Text of maximum 1500 characters.

1.7.4. Question
Q25: How many acute care beds for COVID-19 patients are available in your country?
Expected type of value : Text of maximum 1500 characters.

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.7.5. Question	
Q26: What % of acute care beds designated to COVID-19 patients are currently occupied?	
Expected type of value : Text of maximum 1500 characters.	
1.7.6. Question	
Q27: How many additional acute care beds can you set up as surge capacity?	
Expected type of value : Text of maximum 1500 characters.	
1.7.7. Question	
Q 28: What is your country's strategy to isolation/quarantine of contacts/cases after the lifting of measures?	
Currently people who show COVID-19 related symptoms are required to self-isolate. The patient stays in self-isolation until he/she has had no symptoms for at least 24 hours. Family members of someone who shows symptoms need to self-isolate as well in case the symptoms	
Expected type of value : Text of maximum 1500 characters.	
1.7.8. Question	
Q29: Are you planning to use any unlicensed treatments?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
1.7.9. Question	
Q30: If yes, please specify, based on the available data, which class of drugs would you prefer to use.	
<input type="checkbox"/>	Monoclonal antibodies
<input type="checkbox"/>	Kaletra (Lopinavir / Ritonavir)
<input type="checkbox"/>	MIRACLE protocol (Kaletra + interferon beta 1b)
<input type="checkbox"/>	Remdesivir
<input type="checkbox"/>	Favipirivir
<input type="checkbox"/>	Polyclonal antibodies
<input type="checkbox"/>	Other. Please specify:
Free text for Option n° 7	

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.7.10. Question	
Q31: Are you running tendering procedures of any of these medicines?	
<input type="checkbox"/>	Monoclonal antibodies
<input type="checkbox"/>	Kaletra (Lopinavir/Ritonavir)
<input type="checkbox"/>	MIRACLE protocol (Kaletra +interferon beta 1b)
<input type="checkbox"/>	Remdesivir
<input type="checkbox"/>	Favipirivir
<input type="checkbox"/>	Polyclonal antibodies
<input type="checkbox"/>	Other
Free text for Option n° 7	

1.7.11. Question	
Q32: Has your country identified broader impact on health care provision?	
<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input checked="" type="checkbox"/>	Please specify:
Free text for Option n° 3	
As the number of COVID-19 patients is decreasing in the Netherlands, the pressure on the healthcare system is decreasing as well. Regular care (non-COVID) is gradually being scaled-up.	

1.7.12. Question	
Q33 What is your country's approach to ensuring capacities in other non-COVID related healthcare services?	
See 1.7.11	
Expected type of value : Text of maximum 1500 characters.	

1.8. Non-pharma measures	

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.8.1. Question	
Q34: Did your country implement national isolation (including school closure, movement restrictions, etc.)	
<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input checked="" type="checkbox"/>	Please specify estimated initial lifting date measure
Free text for Option n° 3	
On the 6th of May, the Government of the Netherlands announced a step-by-step approach for the upcoming months. This also entails that some measures will be lifted from the 11th of May. The general advice shifted	
1.8.2. Question	
Q35: What generic community measures have been implemented in your country?	
<input checked="" type="checkbox"/>	Old people's homes restrictions
<input type="checkbox"/>	Internal movement restrictions
<input checked="" type="checkbox"/>	Stay at home requirements
<input type="checkbox"/>	Hospital restrictions
<input checked="" type="checkbox"/>	Physical distancing (e.g. 1 m)
<input type="checkbox"/>	Others
<input type="checkbox"/>	Please specify the measures currently in place and the planned timeline for lifting these measures as part of the exit strategy:
Free text for Option n° 7	
1.8.3. Question	
Q36: What community measures have been implemented in your country with regard to education?	
<input checked="" type="checkbox"/>	Closure of education establishment
<input checked="" type="checkbox"/>	Please specify the type of measures (e.g. postponement, cancellation) and the planned timeline for lifting these measures as part of the exit strategy:
Free text for Option n° 2	
Primary schools and day care facilities were reopened on the 11th of May, with smaller class-sizes. Children will physically attend school approximately 50% of the time. The other 50% will remain distance	

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.8.4. Question	
Q37: What community measures have been implemented in your country with regards to public places?	
<input checked="" type="checkbox"/>	Courts and administrative institutions
<input checked="" type="checkbox"/>	Restaurants / bars
<input type="checkbox"/>	Shopping malls
<input checked="" type="checkbox"/>	Gyms, sport centres, wellness, spas, social and cultural centres (libraries)
<input checked="" type="checkbox"/>	Theatres, cinemas
<input checked="" type="checkbox"/>	Please specify the type of measures (e.g. closure) and the planned timeline for lifting these measures as part of the exit strategy:
Free text for Option n° 6	
the situation will allow and when 1,5m distance can be secured: • Public libraries are reopened again on the 11th of May From the 1st of June: • Museums and heritage sites will reopen. Visitors must reserve beforehand • Cinemas,	
1.8.5. Question	
Q38: What community measures have been implemented in your country with regards to mass gatherings?	
<input checked="" type="checkbox"/>	Sporting events measures
<input checked="" type="checkbox"/>	Religious gatherings measures
<input checked="" type="checkbox"/>	Concerts / festivals measures
<input checked="" type="checkbox"/>	Other mass gatherings
<input checked="" type="checkbox"/>	Please specify the type of measures (e.g. cancellation, postponement, mass gatherings above X people) and the planned timeline for lifting these measures as part of the exit strategy:
Free text for Option n° 5	
Events, such as festivals and major concerts are cancelled until the 1st of September. From the 1st of June, cinemas, restaurants and cultural institutions can be reopened for a maximum of 30 people (including staff). 1,5m distance between people must be secured. Some	
1.8.6. Question	
Q39: What community measures have been implemented in your country with regards to employment?	
<input checked="" type="checkbox"/>	Workplace / employment measures and restrictions, including teleworking
<input checked="" type="checkbox"/>	Please specify the type of measures and the planned timeline for lifting these measures as part of the exit strategy:
Free text for Option n° 2	
The general advice remains work from home if possible. Employees in critical sectors can work from their workplace. From the 11th of May, most people in contact-based roles will be allowed to perform their jobs again. This includes driving	

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.8.7. Question	
Q40: If applicable, what is the planned timeline for lifting measures with regards to public transport?	
Public transport will be operating following the normal timetable (at approximately 40% passenger capacity) from the 1st of June. Public transport should only be used if there is no alternative. Rush hours should be avoided and distance between travelers should be secured as much as possible.	
Expected type of value : Text of maximum 1500 characters.	

1.8.8. Question	
Q41: How does your country monitor the impact / effectiveness of specific de-escalation measures to control the outbreak?	
The situation is monitored and re-evaluated continuously. Relaxations of measures (according to the step-by-step approach), will only take place in case the situation allows.	
Expected type of value : Text of maximum 1500 characters.	

1.9. Research

1.9.1. Question	
Q42: Are you including cases in clinical trials?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input type="checkbox"/>	Please specify:
Free text for Option n° 3	

1.10. Contact tracing:

1.10.1. Question	
Q43: Does your country have sufficient resources for extensive contact tracing linked with large scale testing?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input checked="" type="checkbox"/>	Please specify planned scale up of contact tracing capacities:
Free text for Option n° 3	
Extensive contact tracing was problematic because of the number of individuals infected vis-a-vis the available staff working in Municipal Health Services responsible for contact tracing. However, the Municipal Health Services have been able to scale up capacity for extensive contact tracing and will continue to do so.	

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

1.10.2. Question	
Q44: Is your country using / planning to incorporate contact tracing mobile application / tools in your national contact tracing procedure?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input type="checkbox"/>	Please specify:
Free text for Option n° 3	

1.10.3. Question	
Q45: Is your country currently developing contact tracing mobile applications/tools?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input type="checkbox"/>	Please specify:
Free text for Option n° 3	

2. Questionnaire 2 - Mobility, internal/external borders, travel restriction, consular etc.

2.1. Repatriation issues

2.1.1. Question
Q1: Please provide an estimate on the number of your citizens stranded in third countries that still require repatriation.
Expected type of value : Text of maximum 1500 characters.

2.1.2. Question
Q2: Please provide an update on repatriation of EU citizens and issues that arose.
Expected type of value : Text of maximum 1500 characters.

2.2. Progress on Green Lanes

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

2.2.1. Question	
Q3: Have all the border crossing points indicated in the green lanes communication been able to ensure transit times of less than 15 minutes?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

2.2.2. Question
Q4: If not, what measures have been taken to improve the situation?
Expected type of value : Text of maximum 1500 characters.

2.2.3. Question
Q5: In the light of the clear guidance in the Com's green lanes border management, C(2020) 1897, point 20, to waive mandatory quarantine of transport workers not displaying symptoms, what facilitating measures have your national health authorities taken to keep transport flowing along the main European network? How had the guidance been reflected in your national measures?
Expected type of value : Text of maximum 1500 characters.

2.3. Difficulties with internal or external border restriction concerning the transport of goods, trans-border workforce

2.3.1. Question	
Q6: Has your country experienced difficulties with clearance of goods at external borders?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input type="checkbox"/>	Please specify:
Free text for Option n° 3	

2.3.2. Question
Q7: If concerned, how do you justify generalised border closures / controls, which violate the EU Treaty provisions?
Expected type of value : Text of maximum 1500 characters.

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

2.3.3. Question
Q8: If concerned, how long do you intend to upkeep generalised border closures/border controls and, if they are notable to indicate a date, what precise conditions have to be met for borders to be reopened again/border controls to be removed again?
Expected type of value : Text of maximum 1500 characters.

2.4. Challenges with implementation of a temporary restriction on non-essential travel to the EU

2.4.1. Question
Q9: Do you advise against travel – essential or non-essential – to any risk areas as per national definition?
Expected type of value : Text of maximum 1500 characters.

2.4.2. Question
Q10: What is the planned timeline for lifting travel bans / restrictions as part of the exit strategy?
Expected type of value : Text of maximum 1500 characters.

2.4.3. Question
Q11: What challenges has your country faced with the implementation of a temporary restriction on non-essential travel to the EU?
Expected type of value : Text of maximum 1500 characters.

2.4.4. Question
Q12: If relevant, what is the planned timeline for opening borders as part of the exit strategy?
Expected type of value : Text of maximum 1500 characters.

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

2.4.5. Question	
Q13: Is your country planning to quarantine incoming travellers once the borders are open and travelling is resumed?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input type="checkbox"/>	Please specify:
Free text for Option n° 3	

2.5. Aviation

2.5.1. Question	
Q14: Do you provide aviation sector access to short time work scheme; salary support scheme; temporary unemployment scheme?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input type="checkbox"/>	Please specify:
Free text for Option n° 3	

2.5.2. Question	
Q15: Do you provide loans or loan guarantees to aviation sector?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

2.5.3. Question	
Q16: What other support or aid is available to aviation sector?	
Expected type of value : Text of maximum 1500 characters.	

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

2.5.4. Question	
Q17: If you still ban certain flights, why do you feel flight restrictions are still needed now that you have travel and sanitary restrictions on people in place?	
Expected type of value : Text of maximum 1500 characters.	

2.6. Waterborne transport

2.6.1. Question	
Q18: Do you allow passengers and crews to disembark of cruise ships and do you ensure their repatriation for non-EU citizens?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

2.6.2. Question	
Q19: Do you allow crew to disembark and embark in your sea and inland ports in order to ensure the seagoing and the inland ship to continue his journey?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

2.6.3. Question	
Q20: Do you allow EU and non-EU seagoing and inland crew to enter your country to embark on a ship in one of your port?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

2.6.4. Question	
Q21: Do you provide the maritime transport sector and/or inland navigation sector access to short time work scheme; salary support scheme; temporary unemployment scheme?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

2.6.5. Question	
Q22: Do you provide loans or loan guarantees to the maritime transport sector and/or Inland Navigation sector?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

2.6.6. Question
Q23: What other support or aid is available to the maritime transport sector and/or inland navigation sector?
Expected type of value : Text of maximum 1500 characters.

3. Questionnaire 3 - Socio-economy

3.1. Socio-economy

3.1.1. Question
Q1: Are there any activities in place to monitor / model economic/social impacts? How are these included in the exit strategy?
Expected type of value : Text of maximum 1500 characters.

3.2. Sectors and supply chains most affected (e.g. aviation, tourism, agriculture)

3.2.1. Question
Q2: Has your country noted drops in production? In which sectors?
Expected type of value : Text of maximum 1500 characters.

3.2.2. Question
Q3: Has your country noted drops in demand? In which sectors?
Expected type of value : Text of maximum 1500 characters.

3.2.3. Question
Q4: Has your country noted effects on exports? In which sectors?
Expected type of value : Text of maximum 1500 characters.

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

3.2.4. Question
Q5: Has your country noted risks of trade diversion in certain sectors given the lower demand in China (other countries selling their products to the EU)?
Expected type of value : Text of maximum 1500 characters.

3.2.5. Question
Q6: Can your country report on downsizing of operations (or even ceasing of activity)? In this respect, please provide information you might have available on e.g.:
1) The way businesses are affected by the outbreak. 2) Measures possibly undertaken in terms of employment. 3) Sectors concerned and/or specific example.
Expected type of value : Text of maximum 1500 characters.

3.2.6. Question
Q7: If any sector have reported any disruption or risk of disruption of its supply chain (intra-EU or extra-EU supply chains), could you please share with us this information?
Expected type of value : Text of maximum 1500 characters.

3.2.7. Question
Q8: For the particular case of the supply of personal protective equipment: what is the situation in your country? Is there any production capacity? If so, are there any measures you envisage to facilitate production?
Expected type of value : Text of maximum 1500 characters.

3.2.8. Question
Q9: Has your country undertaken any economic measures specific for transport? Why and which measures?
Expected type of value : Text of maximum 1500 characters.

3.3. Measures taken to counter the downturn (fiscal, state aid,...)
--

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

3.3.1. Question
Q10: In general, what measures have been taken to counter the downturn of this crisis?
Expected type of value : Text of maximum 1500 characters.
3.3.2. Question
Q11: What measures are planned to lift up the economy once the crisis is over?
Expected type of value : Text of maximum 1500 characters.
3.3.3. Question
Q12: What is the estimated impact on annual growth?
Expected type of value : Text of maximum 1500 characters.
3.3.4. Question
Q13: What is the estimated impact on national labour market?
Expected type of value : Text of maximum 1500 characters.
3.3.5. Question
Q14: What is the impact on and measures related to temporary / seasonal EU workers working in other MS?
Expected type of value : Text of maximum 1500 characters.
3.3.6. Question
Q15: Please indicate what shortages you have noted on raw and other materials for internal production chains.
Expected type of value : Text of maximum 1500 characters.

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

3.3.7. Question
Q16: What is the outlook of impact on agricultures and other critical sectors (power, security), including business continuity for critical infrastructure (e.g. power utilities, in particular nuclear power plants)?
Expected type of value : Text of maximum 1500 characters.

3.4. Support to SME
3.4.1. Question
Q17: To support SMEs, has your country implemented financial guarantees for businesses?
<input type="checkbox"/> Yes
<input type="checkbox"/> No
<input type="checkbox"/> Please specify:
Free text for Option n° 3

3.4.2. Question
Q18: To support SMEs, has your country implemented grants and financial transfers to businesses including wage subsidies?
<input type="checkbox"/> Yes
<input type="checkbox"/> No
<input type="checkbox"/> Please specify:
Free text for Option n° 3

3.4.3. Question
Q19: To support SMEs, what national measures have been implemented with regards to loans?
Expected type of value : Text of maximum 1500 characters.

Please save this file to your device before filling it in. Otherwise, the inserted information can be lost.

3.4.4. Question
Q20: To support SMEs, what national measures have been implemented with regards to administrative burden reduction / simplification, e.g. tax deferrals?
Expected type of value : Text of maximum 1500 characters.

3.4.5. Question
Q21: To support SMEs, what national measures have been implemented with regards to equity-support measures, especially for start-ups and scale-ups?
Expected type of value : Text of maximum 1500 characters.

4. Questionnaire 4: Additional questions on exit strategy

4.1. Question
