

In the definition of health worker contacts, we have specified 'without adequate use of personal protective equipment'.

[illegible]

To: Disease Network members for Influenza and Emerging and Vector borne Diseases
CC: NFPs for Surveillance, WHO Regional Office for Europe and SANTE

We would like to share a proposal of an updated case definition for surveillance with you that now includes fever and excludes sore throat following your suggestions. Also the name of the disease (COVID-19) and virus (SARS-CoV-2) have been updated accordingly.

Please come back to us **by 13:00 on Monday, 17 Feb 2020**, should you have any further suggestions before we update the webpage with the revised version.
