Subject: RE: AF60- JRC Report on risk in third countries: 2019-nCoV

Dank voor de info (10)(2e)

Op basis hiervan stel ik voor om in het SO van morgen de endemische verspreiding in Singapore als signaal op te nemen – die informatie is in het publieke domein, dus dat zou moeten kunnen?

Groet.

(10)(2e)

Subject: FW: AF60- JRC Report on risk in third countries: 2019-nCoV

Vertrouwelijk hierbij bijgaande documenten. Zie vanaf p26 in background paper voor risico inschatting "Areas with presumed ongoing community transmission of Covid-19, based on epidemiological data and information collected from epidemic intelligence as of 15 February 2020" zoals deze door AF wordt besproken vandaag/morgen. Vorige week was er nogal wat weerstand, ook vanuit NL, om de gebieden nu al zo uit te breiden omdat dit nogal wat implicaties zou hebben voor wie suspected case zou zijn en dus getest zou moeten worden.

Groeten.

Subject: AF60- JRC Report on risk in third countries: 2019-nCoV

Dear members of the Advisory Forum,

As requested during the discussions in today's Advisory Forum, please find attached the report from the Joint Research Centre referred to in the ECDC document *Areas with presumed ongoing community transmission of Covid-19* (included in document AF60-04 Background documents COVID-19).

Best regards,

Corporate Governance Secretariat
