Stanoeva COVID19 Outbreak C2019 EUPHEM 2020 v6.docx

Dear (10)(2e)

Hope all is well. Thanks, we are fine and the trip to Japan is getting postponed again (not unexpectedly).

Thank you for the comments on the ESCAIDE abstract. We have made some progress with the circulation through the partner organisations. Please find attached the latest version. At this stage I expect to add 1-2 co-authors from the municipal health service and no/minimal changes on the text. The text change (if it happens) will be the update on the total number of company employees as of June. If we can't confirm it now, I'll try to have it for the poster later on.

Huge apologies for the last-minute message on the deadline day, I hope you will have some time to have a look at it.

All the best,
 (10)(2e)

Hi (10)(2e)

It is being busy but we will survive! How are you and your planned trip to Japan?

Thanks for sharing the documents!

I send you a few comments to the abstract for your consideration for the next round,

All the best,

(10)(2e)

Asunto: COVID-19 outbreak report confidential & ESCAIDE abstract

Good morning, (10)(2e)

Hope you are well and September in Spain is not starting overwhelmingly busy.

It is an update of the COVID-19 outbreak in a meat-processing factory in the south of the Netherlands. Please find attached our censored outbreak report that I can't upload on EVA, and share with you for the "confidential fellowship folder". It feels rather strange at this stage as it is already in the media and can be easily googled, but anyways, let's keep everyone happy *

Furthermore, please find attached our ESCAIDE draft abstract on the outbreak. It is now being circulated with the members of the OMT for submission approval and should only have minor updates, like adding the names of those who agree to be listed as co-authors. I thought it's better to send you this preliminary version instead of waiting for the full clearance. Hopefully, next week I can send you the final version too. Thank you for being so flexible with the ESCAIDE deadlines and waiting for us, I really appreciate it.

Wishing you a nice week-end,
All the best,

(10)(2e)
