Dear (10)(2e)

I have volunteered to edit a special theme issue on COVID-19 and Internal Medicine and I am hoping we can discuss the possibility of you composing an article to be featured in the issue. The issue will include a variety of research articles, reviews, and case reports focused around the challenges of the COVID-19 pandemic.

Could we discuss this further?

Sincerely,

(10)(2e)
Internal Medicine Review [IMRJ]
