Dear 10.2.e

10.2.a told me that 10.2.e called, explaining that he is in a difficult position as what he agreed with NL after suspension was lifted is not fully in line with what he agreed later, with Buiten reikwijdte for instance.

In case of Buiten reikwijdte companies had to submit some declarations and also authority has to submit a declaration. In case of Buiten reikwijdte:

10.2.a

If you scroll down you will find also some English text.
