Onderwerp: 2 tables: Buiten reikwijdte and dutch container timeframes
Datum: dinsdag 20 oktober 2020 21:01:11

Dear all,
I made two tables for our reference:
Buiten reikwijdte

Buiten reikwijdte

One with the numbers of dutch containers that were sent and in which timeframe:

- From end suspension till 17 sept (when 10.2.e said he would come back on the issue)
- From 18 sept to 30 sept (the date of the talk with 10.2.e where apparently 10.2.e told the companies they need to stop exporting)
- From 1 October onwards

Numbers containers

company	total	From end suspension – 17 sept	18 sept - 30 sept	From 1 october
VION (61 and 367)	160	0	107	53
Buiten reikwijdte
