

February 2021

Dear NVT-member,

We are delighted to invite you to the first webinar organized by 5.1.2e
5.1.2e

The Symposium is entitled "**Challenges in vaccines development during the COVID-19 pandemic**".

We have composed an exciting **2.5-hour program** with national experts providing:

- An overview on the history and strategies of the development of (COVID) vaccines.
- Insights in the assessment of COVID vaccines, including the usefulness and necessity of animal studies, clinical trial design and endpoints, (long term) side effects and vaccination during pregnancy.
- Insights in the importance and challenges of COVID related communication.
- Q&A sessions with the experts.

We hope the program sparks your interest and we welcome you on the **2nd of March**.

Registration deadline: Tuesday 23rd of February

There is no registration fee for this webinar but there is a **maximum of 300 participants**.

You can register by sending an e-mail to 5.1.2e (5.1.2e 5.1.2e) with the subject "**Vaccines Symposium 02MAR2021**". If needed, a certificate of participation can be requested at time of registration.

You will receive the invitation (Teams)link on **Monday the 1st of March**, to be used for personal use only.

Best regards,

5.1.2e

You receive this e-mail because you are listed as a member of the Dutch Society of Toxicology (NVT). The individual sections cannot change contact details of the members. For membership information and/or change in contact details, please go to <https://toxicologie.nl/en/membership/>.

Challenges in vaccines development during the COVID-19 pandemic
