In my last conversation they mentioned that capacity issue will be resolved. If [redacted] needs to be placed, they will make it happen (political pressure helped with this decision I guess).

Hi [redacted]

What I meant was vaccine types, so when for instance Janssen and novovax might come in at some point. Have not looked at the problem you mention now. Good to know, and I should also need to check whether the new logistics model accounts for that.

Best regards,

[redacted]
