Fyi

Hi [redacted]

Here are this week's notes.

I have received a response from [redacted] following the food adjustments. On 3 February she spoke to the [redacted] about this. Adjustments are possible, if this is outside the agreed budget, the staff will have to pay the additional costs. As a result of the contract extension, they will look at possibilities for a different accommodation. There was also a question regarding the quarantine procedure of the hotel. It is stated here that guidelines have been drawn up according to the DVG. To what extent this is carried out by hotels that is not known.

Yesterday we spoke to Curacao Medical Centre. This conversation indicated that there are currently staff shortages in the OR. At the moment the number of COVID cases decreases. If it is possible, and if there are personnel changes imminent, that one or two PA anesthesia can be placed instead of staff for COVID care?

In the current contract, it's not possible. However, an addendum can be created for this. In the new contract, we can take this with us.

From Curacao Medical Centre we also understood that the pressure in the HOH Aruba is high due to COVID care. There may be a request to move staff from Curacao to Aruba. This afternoon we talk to Aruba about this.

SMMC has asked ami to support vaccinating. As long as COVID care allows this, that's fine.

As for vaccinating AMI staff. Can you tell us more about that? How far are you with the invoices? What about the contract? Time is running out for us so we would like to see action taken quickly.

This afternoon there will be a meeting with the leadership. Both vaccination and invoices are then discussed. The aim is still the end of this week.

[redacted] sends an email with the points we want included in the contract.

Do you have any additions or adjustments?

Kind regards,

[redacted]
