[ARVODI_2018-English-may2018.pdf](#)

Hi [REDACTED]

As agreed in our conversation of 10 February, I will send you a number of terms that we would like to include extra in the new contract.

Total extension contract is 6 months. 1st of March until 1st of September 2021.

To be included in Exhibit A (services)

In general

The composition of the teams is determined by the Ministry of Health, Welfare and Sports, in accordance with the hospital. The Ministry of Health, Welfare and Sports will communicate team composition to AMI.

COVID care is priority, with emphasis on intensive or medium care. If necessary and possible staff can be deployed flexibly within the hospital. Flexible deployment will be shown in the weekly reports.

If required, members of AMI's clinical team will be deployed to other venues in the Caribbean to provide clinical support to other medical operations, per order of the Ministry of Health, Welfare and Sports.

Deployment of the staff for a minimum of 6 weeks.

AMI will make sure all staff is vaccinated. From 1 April 2021, anyone who is going to work on the islands must be fully vaccinated before arriving on the islands.

For the period from 1st of March until 1st of June 2021:

Required numbers of staff: minimum 100. If necessary, deployment of additional AMI staff according to the needs of the venues in the Caribbean, per order of the Ministry of Health, Welfare and Sports.

- At the beginning of May 2021, the exact numbers of required staff for the period up to 1 September will be communicated to AMI.

For the period from 1st of June until the 1st of September 2021

Flexible deployment of the number of staff. We expect that the pressure on hospital care will decrease over the course of the months (due to vaccination) and that in the long term less staffing will be required.

To be included in Exhibit B

The overpayment in the period from April to February will be reimbursed to the Ministry of Health, Welfare and Sports prior to the new contract.

Or a payment arrangement is included in the contract.

In general

In accordance with rule and legislation in the Netherlands, we need to include an ARVODI in the contract. The ARVODI offer a uniform set of general terms and conditions for service agreements between the state of the Netherlands and third parties.

Kind regards,
