Onderwerp: RE: URGENT: Vaccination

Good afternoon [redacted]

We are happy to get on a call with you tomorrow morning to discuss the AMI team vaccination possibilities that we have recently been discussing internally. We have come up with a few options that we would like to discuss with you on a call tomorrow before moving forward with our plan of action. This is an important piece of our strategy for the islands team as we move forward into the new contract. We want to make sure that we are all on the same page and in agreement with how we will move forward with the vaccinations.

I would like to suggest that we get on a call tomorrow morning at either 9AM EST or 11AM EST. Please let us know if either of those times would work for your schedule and if you are not available during those times, please suggest a time that would work better for you and we will make ourselves available to speak with you at that time.

Thanks in advance and looking forward to speaking with you tomorrow.

Kind Regards,

Subject: RE: URGENT: Vaccination

[EXTERNAL]

Dear colleagues,

This is taking too much time to get a clear answer. We have agreed that AMI would vaccinate its staff. We can understand that it is difficult to procure vaccines. The whole world is facing the same problem. What I don't understand that you keep us and your staff so long in the dark about your strategy. Because of this the hospitals face tensions on the workforce and they need to solve this. Can we have a call today or tomorrow, because I think this issue needs to be solved this week? Next week the other hospitals will start to vaccinate as well.

Kind regards,

5.1.2e

Ok. Thanks. Any idea when you have an update on you supply issues. This matter will pop up soon on the other islands as well. We start to vaccinate next week on SXM and CUR.

Best,

 Onderwerp: Re: URGENT: Vaccination

Good afternoon [REDACTED]

Our emails to one another must have crossed when you received that call, I was in the process of writing an email to all of my team leads conveying this message and I have asked them to acknowledge receipt. I have received a response from the Aruba team lead that she is aware of this policy and is aware of the plan moving forward and there will be no further confusion.

Kind regards,

[REDACTED]

> COVID vaccinations are starting this week in the Caribbean. Aruba will be the first island to start vaccinations. We understand from our colleagues in Aruba that the AMI staff assumes that they are eligible for the first vaccination rounds on the island. However, this is not in line with the agreement we made with each other on 28th January. It has been agreed that AMI will vaccinate its own staff. We have also communicated this to the hospitals on the islands. We believe it is important that you communicate this agreement we have made regarding vaccination with the team leads on the islands as soon as possible, so that AMI's healthcare staff can be informed. Can you take care of this?
