Dear 5.1.2e

*Correspondentie uitsluitend

met vermelding van de datum
en het kenmerk van deze
brief.*

In December 2020 we received your letter in which you explained the expertise of your company and your offer to help in the Covid-19 pandemic in the Netherlands with your expertise on certification of products to meet safety standards, solutions for testing and certifying medical devices and protective equipment for transportation, development Covid-19 testing kits and your expertise in repurposing or developing of new vaccines.

We thank you very much for your interest and offer to help.

In the Netherlands testing operations and the vaccination campaign are running. These operations are merely executed by the regional institutions, like our Regional Public Health Services (GGD), the National Health Institution (RIVM) and others. They are responsible for the proper execution of these operations (e.g. validation-studies, safe deployment, human resources, etcetera). They have, in cooperation with the Ministry, their network of suppliers organized. Up until now there are no requests for further expertise and equipment. Whenever an emergency situation would occur and additional expertise is needed, we know that you are willing to offer your help.

We thank you for your interest and kind offer,

Yours sincerely,
