

Dear [REDACTED]

Some vaccines use squalene-based adjuvants. Squalene is normally obtained from sharks but there are synthetic versions I understand. AS05 from GSK (in the Sanofi vaccin) contains squalene.

None of our first five vaccines (for 2021) contain adjuvants, if I am correctly informed.

Ämne: Sharks used in fabrication of vaccines

Colleagues,

We received parliamentary questions on the fact that sharks are in large amounts being used, to produce our vaccines. Does anyone know if that is true?
