Hoi [redacted] voorstel om deze mail te sturen met (b)cc naar [redacted] en cc naar [redacted]

Dear mr. [redacted]

my name is [redacted] and I am working at the Dutch ministry of Health. Recently you have been in contact with [redacted] and you indicated that [redacted]. We are currently considering your suggestion to build additional production capacity for your unique product in our country. For this we would like to ask if it is possible to get access to a few examples of the test for a "hands on experience".
 I hope that this is possible and look forward to your response.

With kind regards, [redacted]

Onderwerp: Fwd: Netherlands request to Ellume

Dag [redacted]

hieronder zie je de mail van [redacted]. Hij geeft aan dat [redacted] beschikbare testen heeft opgekocht. Hij zou het wel willen ondersteunen als we ze in Nederland zelf in productie willen nemen. [redacted] is dit aan het onderzoeken.
 Deze test heeft een aantal aspecten die we zeer interessant vinden voor toepassing als zelftest voor de bevolking. Teneerste het ontwerp van de afname-wattendrager en de verdere verbouwing alsmede de bluetooth koppeling van de teststrip naar de mobiele telefoon voor het doorgeven van de uitslag.
 Wij zouden een aantal testen willen opvragen om dit beter te kunnen beoordelen op bruikbaarheid.

Een mail zou als volgt kunnen luiden:

Dear [redacted]

my name is [redacted] and I am working at the Dutch ministry of Health. Recently you have been in contact with [redacted] and you indicated that all available products have been allocated [redacted]. We are currently considering your suggestion to build additional production capacity for your unique product in our country. For this we would like to ask if it is possible to get access to a few examples of the test for a

"hands on experience".
I hope that this is possible and look forward to your response.

With kind regards,

Dear [REDACTED]

hope all is well with you and your beloved ones. COVID has a huge impact on society and healthcare here in Europe at the moment. We hope the vaccine will give some relief.

I am appointed by our minister of health to develop home-based testing for COVID-19. For this purpose a Brisbane-based company has developed a FDA-approved over the counter test. The company's name is Ellume.

I wonder whether you know this company and if you might have a contact for me to get more details on the technology?

<https://www.ellumehealth.com/products/consumer-products/>

Would be highly appreciated.

Take care and stay safe,
