Subject: Draft minutes MB50 and call for volunteer to join ECDC AuditCommittee
[MB51-02 Draft Minutes \(for MB review\) NL.docx](#)

Dear Members of the Management Board,

Thank you for preparing the Draft Minutes of the Fiftieth meeting of the Management Board (audioconference, 25 November 2020). We have reviewed it and have only one comment in relation to health systems data on page 7:

Some MB members felt though that the most important was to understand the communicable disease prevention and response part, as it would be difficult to grasp the entire functioning of the health systems due to their complexity.

We would like to highlight that in the Netherlands, we indeed believe that sharing health systems data should be in the context of public health and communicable disease prevention and response only. Sharing data and monitoring health systems in a broad context is not desirable for the Netherlands.

We hope you can add this comment into the minutes.

Thank you in advance.

Kind regards,
