Thank you.

Yes same here.

We aim to start next week with inviting staff of nursing homes. Than elderly people who are still independent.

First shots by the 8th. Like with you growing to full capacity second half of Jan!

Due to situation in IC rooms, we will possibly start including them as well.

Still searching for best way to roll Pfizer out to care homes.

For planning we really need delivery schedules Moderna and clarity on AZ and Janssen.

Best regards, [REDACTED]

Onderwerp: Re: vaccination in France

Dear [REDACTED]

In France, the campaign is just starting (1st shot was on the 27th), with the objective of having offered the vaccine to all those eligible in the first phase by end-January, ie residents in nursing and care home as well as medical staff with co-morbidities or over the age of 65. Our estimate is this will reach 1 million persons by the end of this month.

Helpful to have your feedback on the Dutch campaign as well - I can imagine we are all currently suffering from constant comparisons with our neighbours (starting with the biggest one). [REDACTED]

Kind regards

[REDACTED]
