In response to your question regarding medication prescribed by MD's: CMC indicates that this has to do with a training for the use of the patient electronic health record (Hix,Chipsoft). The moment the MDs have completed this training, they can prescribe medication.

Regarding food adjustments and procedure in case of COVID positive testing: Contact has been made with the contact of the Government of Aruba. As far as Curacao is concerned, they have not yet had any success in making contact. [REDACTED] checking to see if there's anything [REDACTED] can do.

Last Monday the vaccination strategy was discussed with [REDACTED]. There's no plan at the moment. [REDACTED] will consult his colleagues about the vaccination strategy and will come up with a plan. There will be an update next week.

Regarding the invoices: [REDACTED] is working on it.

Contract: A meeting is scheduled for tomorrow at 9:30AM EST with VWS and AMI.
