**Onderwerp:** Re: Roche - Cartridges

Dear 5.1.2e

Please find attached the signed CDAs from our side. While I have meanwhile received the specs of the Heating Block (incubator), I'm missing some last details of the Magnetic Separator (Sep Station). You've only requested the Heating Block, but we believe that you need both for a full assessment and will provide them as a package in a separate email asking you to distribute accordingly under coverage of the CDA.

The samples are being looked at and I'll be able to provide you the outcome latest by Monday.

Thanks,
5.1.2e

Dear 5.1.2e

Enclosed we send you the signed confidentiality agreement. One signed by the Ministry of Health Welfare and Sports and one signed by 5.1.1c 5.1.1c is the Chinese company producing the mold, Hamwells is their Dutch counterpart. However, I thought it was better to let 5.1.1c sign because they will use the information to adjust the mold. In addition to article 5 we wish to point out that the Ministry might be obliged to disclose information on the basis of the Dutch Government Information (Public Access) Act or parliamentary questions, however trade secrets are excluded from this disclosure.

Looking forward receiving the details about the heater block.

Have a great weekend,

5.1.2e
