Geachte [redacted] 5.1.2e

Hartelijk dank voor uw tijd aan de telefoon zojuist. Zoals met u besproken stuur ik u hierbij de twee vergelijkende application notes van de test die inBiome heeft gedaan met onze Clean Viral extractiekit op het Covid-19 panel van het RIVM.

De ene app note is heel transparant, en ik begrijp dat we die zo niet kunnen publiceren. Ook voor inBiome was deze te heftig, maar ik stuur hem even mee als referentie. De andere hebben we volledig geblindeerd, en de tekst hier en daar wat aangepast.

Ik hoor heel graag wat voor jullie acceptabel is, en eventuele aanwijzingen hoe de tekst en gegevens zo te presenteren dat ze wel acceptabel zijn. Alvast hartelijk dank,

With kind regards/Met vriendelijke groet,

Geachte heer 5.1.2e

Wij kennen elkaar nog niet, ik heb uw naam gekregen van 5.1.2e van inBiome.

CleanNA is een Nederlandse producent van NA extractiekits op basis van magnetic beads. inBiome heeft recentelijk onze Clean Viral DNA and RNA kit getest met het RIVM SARS-CoV-2 proficiency panel om te toetsen of de kit voor hen bruikbaar zou zijn in hun diagnostiek. De data zagen er in onze ogen veelbelovend uit. Graag zou ik met jullie in gesprek willen om te overleggen wat wij wel en niet met deze data mogen doen. Ben ik bij u aan het juiste adres, of is er misschien iemand anders die ik daarover kan spreken? Ik hoor het heel graag,
