Subject: NZNFP-S200825-1-C19: Request for information on a case of COVID-19 notified
Received: Tue 8/25/2020 2:40:28 AM

Dear Netherlands National Focal Point

Our reference: NZNFP-S200825-1-C19

The New Zealand National Focal Point have been informed of a case of COVID-19 in the Netherlands who has recently been in New Zealand.

Situation Summary

One of our local public health units has been contacted by a couple living in Port Waikato who say they are contacts of two Dutch tourists who have recently left NZ (on 15th August), one of whom has tested positive for covid on arrival home in the Netherlands.

The details provided to us on the Dutch tourists are:

• In NZ since February. Port Waikato on the 6th-10th August. Flew out of NZ [redacted] on the 15th August transit [redacted] to Netherlands.

• The male tested on the 18th in Netherlands– positive result received on the 21st August

• Male experienced hay fever type symptoms whilst staying at the couples house between August 6th-10th. No other information available on symptoms.

At present we only have the first name and phone number of the couple and we are seeking extra information.

[redacted] phone 00 [redacted]
[redacted] phone 00 [redacted]

If you have any additional information you could provide us on this positive result, it would be much appreciated.

The information we would like is outlined below;

- 1) What test was used to determine the positive result?
- 2) If RT-PCR, what was the Ct value?
- 3) Is the case currently symptomatic?
- 4) Do you intend to re-test?
- 5) Do you intend to genome sequence the virus from the case, and if so, would it be possible for that information to be shared with us?

We very much appreciate you cooperation.

When replying to this email please reply to [redacted]@health.govt.nz

Kind regards

[redacted]
