Dear [redacted]

Thank you for this information. The Public Entity of St. Eustatius is pleased with the decision to have the elective care take place in Aruba, Curacao & Bonaire. Please give some much needed attention to how the care for he dialysis patients will be managed during the hurricane season in combination with the COVID 19 pandemic. Drawing from our experience with hurricanes and their impact on St. Maarten/St. Martin in 2017 it is not advisable to have Statia/Saba dialysis patients there during the peak.

We await your soonest response.

Respectfully,

[redacted]

Dear all,

Today after consulting with IGJ and RIVM, ZJCN came to the following route for medical referrals for the coming two weeks. Urgent care will continue to be referred to SMMC. The so called "ZVK bubble" is deemed as safe for urgent care at SMMC.

As for elective medical referrals, these will be directed to Bonaire, Curaçao or Aruba. The ZJCN will be assessing this situation with due diligence and will be informing you how we will proceed after two weeks.

Hope to have informed you sufficiently,

With kind regards,
