Received: Tue 7/14/2020 12:03:56 PM

Dear all,
We are not yet ready to publish our results today publicly regarding testing and isolation, therefore I would like to ask to defer publication of the link to the webinar with one day – if still possible?
Excuses for any inconveniences caused!
Kind regards,

Your sincerely
(10)(2e) (10)(2e)

Subject: RE: [External] RE: Moderation of the webinar on Friday

Dear all,
Thank you very much for an inspiring session and perfect hosting. (10)(2e) and (10)(2e) asked me to send you an updated, final version of their presentation; they shared some preliminary results in sheet 11 of the presentation used during the webinar to give a flavor of the most recent insights gathered, but this information is still under discussion. They therefore feel it would be best if it was left out of the sheets distributed among the participants. Therefore, I've enclosed a final .ppt version in which this slide is excluded.
Accordingly, would it be possible to postpone any sharing/publication of the recorded video to until Tuesday? As of then, the results in question will be finalized/made definitive.
Thank you very much for your consideration,
Best regards,
On behalf of (10)(2e) and (10)(2e)

Thank you all for sharing you presentations with me.
We usually have speakers handle their own slides since that makes it easier for them to have control over their full presentation.
I will act as a backup in case there is a technical issue preventing any of you to share your own slides.
We will test your individual screen share in our practice session at 2.45.
Kind regards,
(10)(2e)
