Subject: RE: For validation and information: ECDC Technical report "COVID-19 clusters and outbreaks in occupational settings in the EU/EEA and the UK"
Received: Wed 7/29/2020 7:27:13 AM

Er staan geen Nederland-specifieke data in het rapport. Geen verdere actie nodig lijkt me.

Groet,

(10)(2e)

Hoi (10)(2e)

Heb jij dit ECDC document ook gehad? Ik weet niet wie de NLse cijfers heeft aangeleverd, maar voor zover ik weet had jij dit overzicht bij EPI. Kan jij dit document controleren of heeft LCI gegevens aangeleverd en doen zij de controle?

Groet

(10)(2e)

Dear Colleagues,

Today, ECDC will circulate the following three documents requesting country validation and/or input:

1. COVID-19 clusters and outbreaks in occupational settings in the EU/EEA and the UK
2. The role of childcare and educational settings in COVID-19 transmission
3. Testing for COVID-19 in school settings

This email relates to the first document, "COVID-19 clusters and outbreaks in occupational settings in the EU/EEA and the UK". We would like to thank the countries who responded to our recent request for data on outbreaks related to occupational settings by sending us valuable information from your surveillance and outbreak investigations. Using the data provided by countries, together with data from the literature and epidemic intelligence/media sources, ECDC has developed the attached technical report on "COVID-19 clusters and outbreaks in occupational settings in the EU/EEA and the UK". The aim of this report is to outline risk factors and patterns for COVID-19 in occupational settings.

We would like to ask you to review the data presented for your country in the report attached and highlight if you feel that something is misrepresented. Please provide any comments in track changes by Wednesday 29 July 2020 COB.

We ask your understanding for the tight deadline. Our intention is to deliver this document in an unedited version to the European Commission on 31 July, 2020. The edited document will be published during the week thereafter.

We fully understand the pressure under which you are currently working. We highly appreciate your readiness and willingness to share information with the network and other MS, and contribute to ECDC outputs.

With kind regards,

ECDC PHE Technical Group
