

Hi (10)(2e)

Thanks for your quick update and all your work, sounds fine!  
 Could you share with use the final version of the questionnaire and the positive nWMO judgement? Might help to speed up our nWMO process.

Best wishes,  
 (10)(2e)

**Subject:** IMPACT - quick update

Dear all,

as a quick update of where the IMPACT-COVID efforts stand:

- The core questionnaire is finalised
- it has been sent to MyResearchApp who should come back with a first version of the electronic questionnaire platform in about a week from now
- for AMIGO we have nWMO
- AMIGO is not done yet with the DPIA - we are trying to answer questions from our FG
- EPIC is also working on clearance (nWMO/DMP/DPIA)
- we are working on all other materials, such as the invitation letter (nearly there), the disclaimer in the app that participants should agree to (nearly there), and material that can go on the website with all remaining information including FAQ (under construction)

All best

(10)(2e)
