[Aanvraagformulier COVID-19 bottom-up ronde PI v2 LR.docx](#)

Hoi (10)(2e)

In de bijlage vind je het projectvoorstel met mijn feedback.
 Ik denk inderdaad dat het goed is om (10)(2g) hier apart in op te laten nemen.

Groeten,

(10)(2e)

Importance: High

Zie nu pas dat dit een zomnw aanvraag betreft, hier (10)(2e) cohort apart in op laten nemen?
 Groet, (10)(2e)

Ps: ik heb er nog niet naar kunnen kijken, zal dat nog doen maar hoor graag ook jullie comments

Subject: IMPACT - next update

Dear all,

ZonMw opened the second COVID-19 call last Sunday. Max budget is (10)(1c) for 24 months. The deadline is 14 May, 2pm. It is a two-stage procedure.

(10)(2e) and I have worked on a first version of a proposal which is attached. There are a few points:

- Could you please let me know if you don't want to be included, then I can remove your name from the email list.
- If applicable, could you please fill in the cohort details in the pre-proposal (in green-blue)
- Please provide comments, or even better: give suggestions for edits :-)
- Bear in mind that the max length of the pre-proposal is 3 pages, and we have already reached that limit. For text that goes in, other parts have to go out or be shortened. Suggestions are welcome.
- We haven't finalised the budget yet, but anticipated a small amount for all cohorts for cost-recovery and data management, I'll circulate that soon.
- So that we can still work on the comments: Can you please send them back by **Saturday, 9 May 2020 at the very**

latest.

Thanks a lot and kind regards,

(10)(2e) and (10)(2e)

Subject: IMPACT - quick update

Dear all,

as a quick update of where the IMPACT-COVID efforts stand:

- The core questionnaire is finalised
- it has been sent to MyResearchApp who should come back with a first version of the electronic questionnaire platform in about a week from now
- for AMIGO we have nWMO
- AMIGO is not done yet with the DPIA - we are trying to answer questions from our FG
- EPIC is also working on clearance (nWMO/DMP/DPIA)
- we are working on all other materials, such as the invitation letter (nearly there), the disclaimer in the app that participants should agree to (nearly there), and material that can go on the website with all remaining information including FAQ (under construction)

All best

(10)(2e) and (10)(2e)
