INLEIDING

M&I Partners/

Teleperformance
each interaction matters

Beste (10)(2e) en collega's van M&I Partners en GGD/GHOR,

Naar aanleiding van jullie aanvraag afgelopen vrijdag hebben we de afgelopen dagen met veel enthousiasme gewerkt aan dit voorstel. GGD/GHOR is op zoek naar een partner die de bereikbaarheid van de Inkomende burgercontacten vanaf 1 juni kan borgen. Wij zien de opdracht zoals jullie hem hebben omschreven bestaan uit 3 onderdelen:

- 1) Het optimaal inzetten van de test-capaciteit van de GGD (30.000 tests per dag kunnen uitgevoerd worden, hoe borgen we gezamenlijk dat dit aantal ook dagelijks wordt ingevuld)
- 2) Het te woord staan van alle burgers die een afspraak willen maken om getest te worden (mondeling of via een geautomatiseerd/digitaal kanaal)
- 3) Het prioriteren van de test-verzoeken op basis van huidige gezondheid/leeftijd/risico-factoren (indien het aantal test-verzoeken de capaciteit overschrijdt)

Wij geloven dat we deze uitdaging kunnen adresseren door de juiste routing en automatisering in de IVR toe te passen. Denk hierbij aan het deflecteren van minder urgente afspraken naar een digitaal kanaal zoals SMS, Chat of Self-Help portaal, maar ook het onderscheid maken in verschillende skills op basis van leeftijdsgroep, huidige gezondheid en andere risico-factoren, welke kunnen bepalen wie er als eerste te woord moet worden gestaan en ook als eerste een afspraak dient te hebben.

Wij gaan graag samen met jullie dit "solution-design" traject in, waarbij onze ervaring op het gebied van Contact Transformation, Automation, Digitization & Elimination jullie zal helpen om de volumes beheersbaar te houden. Onze ervaring is dat het managen van de verwachtingen/timelines van de burgers met de juiste (digitale) communicatie soms net zo belangrijk is als het daadwerkelijk beantwoorden van de vraag. Indien er veel hogere volumes dan van te voren gedacht binnenkomen hebben we hier de juiste werkprocessen en oplossingen voor in place.

Gebaseerd op onze ervaringen in andere landen met het opzetten van een corona of corona gerelateerde zaken, kunnen we de volgende cases delen. De projectbeschrijving in Dubai benaderd de uitvraag van de Case M&I Partners het beste. Tevens is een overzicht toegevoegd waar we werken voor andere overheidsinstanties. Echter onderstaande 4 cases zijn case gelleerd aan de coronaproblematiek.

Case Frankrijk - 600 FTE - Service Nummer Overheid

UK - 2700 FTE - Service Nummer Overheid

Dubai - 70 FTE - Covid Testing Hub

Griekenland - 70 FTE - Service nummer ministerie volksgezondheid

We bieden aan om deze kennis te delen door met onze collega's een webinar te organiseren op korte termijn om learnings van de diverse operaties te delen, welke als input kan geleiden voor het definitieve design van de case zoals deze in Nederland zich aanbiedt. In de UK wordt momenteel aan een soortgelijk concept gewerkt waar momenteel de laatste hand aan gelegd wordt.

INLEIDING

M&I/Partners/

Teleperformance
each interaction matters

Naast eerdergenoemde best practices bieden we M&I partners en GGD/GHOR:

- Een partner die beschikt over een hoge mate van **flexibiliteit** en **schaalbaarheid** en in staat is om vanaf 1 juni a.s. **bereikbaarheid** en **effectiviteit** te garanderen.
- Een partner die beschikt over een netwerk van recruitment partners die in staat zijn om **commitment** af te geven en te leveren van de benodigde resources
- Een partner die bewezen succesvol **optimaliseert**. We zijn in staat om GGD/GHOR van het juiste advies te voorzien om klantcontact te digitaliseren en automatiseren om op deze manier kosten te verlagen, bereikbaarheid te borgen en burgertevredenheid te optimaliseren. We zetten slimme technologie in om het callcenter proces slim en handig te laten verlopen.
- Een partner die voorziet in de juiste **management- en stuurinformatie** om processen te optimaliseren.

Met vriendelijke groet,

Teleperformance

PS: vriendelijk verzoek om de informatie in dit document (en met name de use cases vertrouwelijk te behandelen)

BEANTWOORDING

M&I/Partners/

Teleperformance
each interaction matters

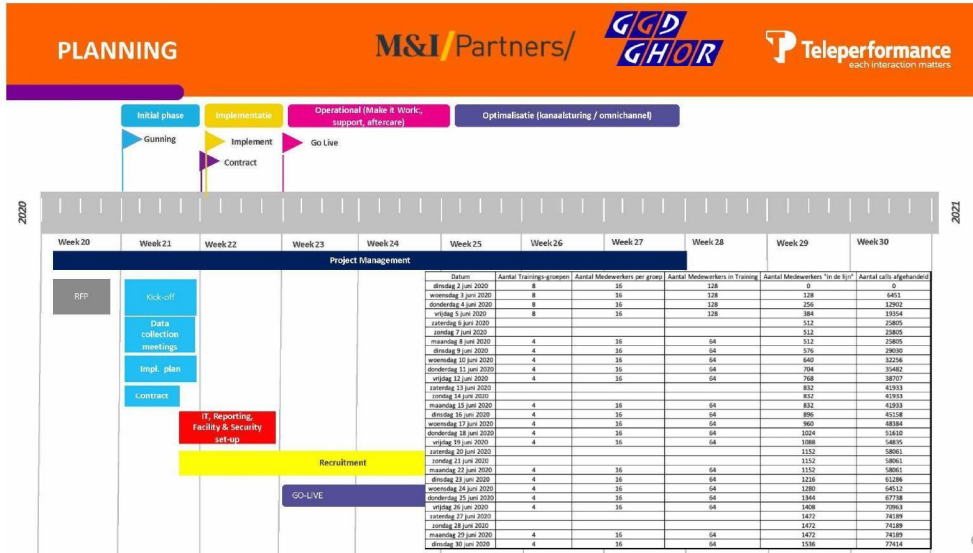

1. Hoeveel doorlooptijd heeft jouw organisatie nodig om na opdrachtverzeking een dergelijk call center operationeel te hebben, wetende dat bovenstaande uitgangspunten de beschikbaarheid van vele honderden agents vereisen?

Bij gunning op vrijdag 15 mei, is Teleperformance in staat om na opdrachtverzeking een dergelijk call center operationeel te zijn. Daarbij maken we gebruik van enerzijds interne werving en anderzijds externe werving via ons recruitment network. Overigens is 1 juni 2e pinksterdag. Ons advies: training op 2 juni; live op 3 juni. Onder embargo heeft Teleperformance de capaciteit bij haar partners getoetst, en het invullen van de aantallen medewerkers kan door deze partijen gefaciliteerd worden. Bij een nadere uitwerking willen we ook alternatieve bespreken, echter voor de hoofdvraag is het sources middels uitzendpartner de beste optie gezien de korte doorlooptijden. Een case welke we tot de verbeelding spreekt, inzake een snelle ramp-up, betreft Disney-plus (online video platform Disney) waar we binnen zeer afzienbare tijd, een support organisatie opgebouwd hebben in diverse landen, middels een thuiswerk operatie. Binnen een periode van 3 maanden in er een Europese organisatie opgebouwd met 2400 thuiswerkplekken. Na gunning van de werkzaamheden aan Teleperformance, deed de coronaproblematiek zijn intrede, en is de focus volledig verlegd naar thuiswerken en is de strategie hierop aangepast. Teleperformance is de hoofdleverancier en is leiding in opschaling van de capaciteit in de diverse landen.

Onderstaand het opschaalschema. We verwachten eind juni op 1536 medewerkers te zitten.

Datum	Aantal Trainings groepen	Aantal Medewerkers per groep	Aantal Medewerkers in Training	Aantal Medewerkers "in de lijn"	Aantal calls afgehandeld

TP Support Local Authorities & Government on COVID-19

April 2020

The image features a man in a blue button-down shirt holding a laptop. The background is a vibrant green with a large, stylized white 'T' shape. Overlaid on the 'T' is a glowing blue fingerprint graphic and other digital interface elements like lines and dots, suggesting a high-tech or digital theme.

Line to support inquiries on government payout to the highly in need sector of society

Back-office

- Back-office support
- Hotlines for government grants for SMEs (Small Medium Enterprises)

UAE Support to Government

Abu Dhabi Digital Authority

Country	UAE
Local Government Entity Supported	Abu Dhabi Digital Authority
Are we supporting specific local communities and/or citizens within country as a whole?	Services being provided to Abu Dhabi citizens through the consolidated service centre – Abu Dhabi Digital Authority
Project Name (if applicable)	ADDA
Country of delivery	UAE
Start date	Ongoing project
Time to implement (from notification/invocation to go-live - in days)	Ongoing project
Locations from where the project is run and/or managed (all, pls list)	Al Ain, UAE
Hours of operation	24*7
Type of service provided	The contact centre consists provides citizen services through omni channel wherein cases are not only logged and sent to the Government Entities, but also followed up for a resolution to the satisfaction of citizens. In addition to customer queries, the centre also handles requests for services, suggestions, complaints and compliments.
#number of agents (split between B&M and WAH):	
#number of agents (Bricks & Mortar)	0
#number of agents (WAH)	126 FTE Work at Home
How long is the training?	1 week
Any Digital Initiatives implemented or planned to implement?	
Is the service scripted (if only partially, please give a % scripted)	
Do we have a prior agreement in place?	Yes
Are we providing any other government services that are linked in any way?	As a part of this contract, we service over 50 government entities
Have we recruited from internal teams or externally, or both (please describe)	We are utilising the existing staff to cater to these calls
Additional Notes	Against the monthly contractual agreement of answering about 49000 interactions, the centre answered over 60000 interactions (for March 2020) from the citizens requesting information about COVID-19 related to testing, lockdown timings and other related information. To align with the vision of making the services seamless, the numbers were reported to Abu Dhabi Digital Authority on a weekly basis to keep a tab on the trending queries, entities and cases registered. In addition to this, enhancements were implemented on the IVR and SMS communication for all the citizens to shift some of the volume to the available digital channels. This resulted in enabling the teams to cater to the customers in need and provide timely information related to any emergency services.

UAE Support to Government

Dubai Health Authority (DHA)

Country	UAE
Local Government Entity Supported	Dubai Health Authority (DHA)
Are we supporting specific local communities and/or citizens within country as a whole?	We are supporting healthcare citizen services for Dubai
Project Name (if applicable)	Dubai Health Authority

Citizen services for booking appointment services for 4 hospitals, 12 primary health clinics and 8 specialty centers. We also cater to queries for services for 19 medical fitness centers and health regulation queries. We are currently catering to queries regarding COVID 19 calls relating to testing, results update, process to be followed as instructed by authorities. Real-time updates are being cascaded to the staff on COVID 19 to be able to provide latest and most updated information to citizens.
#number of agents (split between B&M and WAH):	
#number of agents (Bricks & Mortar)	
#number of agents (WAH)	121 FTE with support staff (overall 143 employees) and 100% of them are working from home
How long is the training?	COVID 19 related training is for 1 day
Any Digital Initiatives implemented or planned to implement?	Recommendations made to client on moving non-priority calls to other channels
Is the service scripted (if only partially, please give a % scripted)	
Do we have a prior agreement in place?	Yes
Are we providing any other government services that are linked in any way?	
Have we recruited from internal teams or externally, or both (please describe)	Combination of using internal resources and some external hiring
Additional Notes	

UAE Support to Government

Abu Dhabi Health Services Company

Country	UAE
Local Government Entity Supported	Abu Dhabi Health Services Company (SEHA)
Are we supporting specific local communities and/or citizens within country as a whole?	We ar supporting healthcare citizen services for Abu Dhabi
Project Name (if applicable)	SEHA
Country of delivery	UAE
Start date	We are providing this as a temporary service for 2 months to manage the overflow of calls that their main contact centre is receiving.
Time to implement (from notification/invocation to go-live - in days)	This team was put together in 3 days time with basic training provided on handling COVID 19 calls.
Locations from where the project is run and/or managed (all, pls list)	UAE
Hours of operation	24*7
Type of service provided	Handling calls related to COVID 19 queries on screen testing, process to be followed in case of people testing positive.
#number of agents (split between B&M and WAH):	
#number of agents (Bricks & Mortar)	
#number of agents (WAH)	25 FTE Work at Home
How long is the training?	1 day
Any Digital Initiatives implemented or planned to implement?	
Is the service scripted (if only partially, please give a % scripted)	-
Do we have a prior agreement in place?	
Are we providing any other government services that are linked in any way?	We provide services to Abu Dhabi Digital Services
Have we recruited from internal teams or externally, or both (please describe)	Combination of internal and external resources
Additional Notes	SEHA is the corporate name for the Abu Dhabi Health Services Company, which owns and operates all public hospitals and clinics across the emirate. 'SEHA' is a phonetic rendering of the Arabic word for health. The company is a leading participant in the reform of Abu Dhabi's healthcare sector. The reform seeks to upgrade and improve healthcare delivery to the public at a level comparable to the finest healthcare systems in the world.

UK Support to Government

Public Health England

Local Government Entity Supported	Public Health England is an executive agency of the Department of Health and Social Care in the United Kingdom. Its formation came as a result of reorganization of the National Health Service.
Are we supporting specific local communities and/or citizens within country as a whole?	The NHS 111 helps with urgent medical problems.
Project Name (if applicable)	
Country of delivery	UK
Start date	
Time to implement (from notification/invocation to go-live - in days)	
Locations from where the project is run and/or managed (all, pls list)	
Hours of operation	
Type of service provided	Citizen calls reception handling for NHS 111 service and basic Q & A regarding COVID19.
#number of agents (split between B&M and WAH):	
#number of agents (B&M & Mortar)	1,700 FTE in sites
#number of agents (WAH)	1,000 FTE Work at Home
How long is the training?	
Any Digital initiatives implemented or planned to implement?	
Is the service scripted (if only partially, please give a % scripted)	
Do we have a prior agreement in place?	
Are we providing any other government services that are linked in any way?	
Have we recruited from internal teams or externally, or both (please describe)	Teleperformance UK last handled the swine flu pandemic for Public Health England. The service is designed to take the pressure off of the front line services of NHS 111. A Public Health algorithm uses Q & A's to deliver an outcome for the citizen based on their symptoms so that they can be reception handled correctly.

UK Support to Government Foreign and Commonwealth Office

Local Government Entity Supported	The Foreign and Commonwealth Office, commonly called the Foreign Office, or British Foreign Office, is responsible for protecting and promoting British interests worldwide.
Are we supporting specific local communities and/or citizens within country as a whole?	
Project Name (if applicable)	
Country of delivery	UK
Start date	
Time to implement (from notification/invocation to go-live - in days)	This service was put in place within 5 days.
Locations from where the project is run and/or managed (all, pls list)	
Hours of operation	
Type of service provided	Repatriation of UK citizens from abroad during the COVID19 pandemic; many of which are stuck abroad and need advice on how to get back into the UK.
#number of agents (split between B&M and WAH):	
#number of agents (Bricks & Mortar)	200 FTE in sites
#number of agents (WAH)	100 FTE Work at Home
How long is the training?	
Any Digital Initiatives implemented or planned to implement?	
Is the service scripted (if only partially, please give a % scripted)	
Do we have a prior agreement in place?	
Are we providing any other government services that are linked in any way?	
Have we recruited from internal teams or externally, or both (please describe)	
Additional Notes	Teleperformance UK have previously handled numerous emergency situations for this client across the last 10 years.

Italy Support to Government

Local Government Entity Supported	Civil Protection (Taranto)
Are we supporting specific local communities and/or citizens within country as a whole?	All the Taranto area (that is where TP Office is located)
Project Name (if applicable)	
Country of delivery	Italy
Start date	DG-abr
Time to implement (from notification/invoication to go-live - in days)	3 day during (last weekend)
Locations from where the project is run and/or managed (all, pls list)	Taranto
Hours of operation	8,30 - 18.00
Type of service provided	At the moment the agents provide informations on how to get delivered at home medicine, food or shopping vouchers
#number of agents (split between B&M and WAH):	3
#number of agents (Bricks & Mortar)	3
#number of agents (WAH)	0
How long is the training?	Not needed, a few slide about the emergency process
Any Digital Initiatives implemented or planned to implement?	No
Is the service scripted (if only partially, please give a % scripted)	No
Do we have a prior agreement in place?	No
Are we providing any other government services that are linked in any way?	No
Have we recruited from internal teams or externally, or both (please describe)	Internal resources

France Support to Government

Local Government Entity Supported	the Information Services of the French Government. Here, it is precisely the Ministry of Health, which launched the toll-free number, which we support.
Are we supporting specific local communities and/or citizens within country as a whole?	Citizens within country as a whole + health professionals
Project Name (if applicable)	COVID-19
Country of delivery	France
Start date	26 February 2020 - 10am
Time to implement (from notification/invocation to go-live - in days)	1 hour
Locations from where the project is run and/or managed (all, pls list)	all French Teleperformance sites, i.e. 13 up to containment (Anières, Belfort, Bordeaux, Orléans, Reims, Niort, Villeneuve d'Ascq, Montpellier, Toulouse, Laval, Le Mans, Montigny)
Hours of operation	7 days a week, 24 hours a day
Type of service provided	Citizen Information Service on the Coronavirus Epidemic: causes, symptoms, measures to follow in case of contamination, government containment measures, precautionary measures to follow, ...
#number of agents (split between B&M and WAH):	600
#number of agents (Bricks & Mortar)	100
#number of agents (WAH)	500
How long is the training?	1 hour initial training brief, followed by continuous training modules built with TP Academy France deployed via e-learning (very short format: stress management, government posture,...)
Any Digital initiatives implemented or planned to implement?	Deployment of a service for the deaf and hard of hearing via the Roger Voice solution - sending SMS messages via Dialonce (Visual IVR) to respond to call peaks, for example, following government speech on TV.
Is the service scripted (if only partially, please give a % scripted)	No. We transmit the instructions and messages sent every day by the French government (FAQ available in TP Client and updated on a recurring basis).
Do we have a prior agreement in place?	We have a contract with SIG since 2012, activated for national crises (Bataclan for example). Normally for COVID-19, it is the Ministry of Health that activates its own providers (actical-Sitel in this case), but the SIG wanted to take over the lead and involve its own known and trusted partner, Teleperformance France.
Are we providing any other government services that are linked in any way?	We have recently been providing an additional information service for the Ile de France Regional Health Agency (this is a new client for TP France).
Have we recruited from internal teams or externally, or both (please describe)	both (priority internal sourcing up to 100 FTEs and then ramp up from externally to 600)

Greece Support to Government

Local Government Entity Supported	EODY (National Health Organization)
Are we supporting specific local communities and/or citizens within country as a whole?	YES
Project Name (if applicable)	1135 - Coronavirus Information Line
Country of delivery	Greece
Start date	2020-03-03
Time to Implement (from notification/invocation to go-live - in days)	1
Locations from where the project is run and/or managed (all, pls list)	Athens - WAHA
Hours of operation	24*7
Type of service provided	Information Line - Phone
#number of agents (split between B&M and WAH):	70
#number of agents (Bricks & Mortar)	0
#number of agents (WAH)	70
How long is the training?	5 to 6h
Any Digital Initiatives implemented or planned to implement?	NO
Is the service scripted (if only partially, please give a % scripted)	100% based on our own CRM platform
Do we have a prior agreement in place?	NO
Are we providing any other government services that are linked in any way?	YES
Have we recruited from internal teams or externally, or both (please describe)	Both 80% internal, 15% external and 5% voluntary work

Lebanon Support to Government

Local Government Entity Supported	MOH / Ministry of Health
Are we supporting specific local communities and/or citizens within country as a whole?	Yes
Project Name (if applicable)	1214 MOH Hotline
Country of delivery	Lebanon
Start date	2014
Time to implement (from notification/invocation to go-live - in days)	1
Locations from where the project is run and/or managed (all, please list)	Kasik
Hours of operation	24*7
Type of service provided	Hotline
#number of agents (split between B&M and WAH):	18
#number of agents (Bricks & Mortar)	18
#number of agents (WAH)	0
How long is the training?	9 hours
Any Digital initiatives implemented or planned to implement?	No
Is the service scripted (if only partially, please give a % scripted)	100% based on our own CRM platform
Do we have a prior agreement in place?	No
Are we providing any other government services that are linked in any way?	Yes
Have we recruited from internal teams or externally, or both (please describe)	Internal

Tunisia Support to Government

Local Government Entity Supported	HEALTH MINISTRY
Are we supporting specific local communities and/or citizens within country as a whole?	YES
Project Name (if applicable)	190
Country of delivery	TUNISIA
Start date	18-mar
Time to implement (from notification/invocation to go-live - in days)	1 week
Locations from where the project is run and/or managed (all, pls list)	Tunis in 190 site
Hours of operation	8H/17H 5 days/week
Type of service provided	level 1 for 190 (SAMU) in TUNISIA
#number of agents (split between B&M and WAH):	
#number of agents (Bricks & Mortar)	
#number of agents (WAH)	15
How long is the training?	1 day
Any Digital initiatives implemented or planned to implement?	no
Is the service scripted (if only partially, please give a % scripted)	no
Do we have a prior agreement in place?	no
Are we providing any other government services that are linked in any way?	NOT YET
Have we recruited from internal teams or externally, or both (please describe)	Only Internal teams

Russia Support to Government

Local Government Entity Supported	Aeroflot (Russian airlines)
Are we supporting specific local communities and/or citizens within country as a whole?	YES
Project Name (if applicable)	return of Russian citizens to their homeland
Country of delivery	Russia
Start date	20/03/2020
Time to implement (from notification/invocation to go-live - in days)	2 hours
Locations from where the project is run and/or managed (all, pls list)	Vladimir, Volgograd
Hours of operation	24*7
Type of service provided	Outbound calls to inform people (based on the embassies' lists) about social departure flights to Russia. TP receives the generated lists of citizens wishing to fly to Russia and makes outgoing calls to obtain personal consent and agree on the departure date according to the AF flight plan. Our task is to obtain consent, inform about the next flights and confirm the departure, informing where and where to go to the airport.
#number of agents (split between B&M and WAH):	100
#number of agents (Bricks & Mortar)	100
#number of agents (WAH)	0
How long is the training?	1 hour
Any Digital initiatives implemented or planned to implement?	NO
Is the service scripted (if only partially, please give a % scripted)	NO
Do we have a prior agreement in place?	NO
Are we providing any other government services that are linked in any way?	NO
Have we recruited from internal teams or externally, or both (please describe)	100% internal
Additional Notes	The Russian Federation has officially announced that the state is ready to facilitate the return to Russia of all citizens who have expressed such a desire in the current crisis situation with the support of the Russian airline Aeroflot. The preliminary schedule for the export of Russian citizens from abroad until April 13 was formed by the Federal Air Transport Agency, according to the press service of the Ministry of Transport of the Russian Federation. The following algorithm was approved: on the created portal on the official website of the Russian Federation "State Services" and through the embassies of the Russian Federation in countries, citizens can apply for a return. TP receives the generated lists of citizens wishing to fly to Russia and makes outgoing calls to obtain personal consent and agree on the departure date according to the AF flight plan. Our task is to obtain consent, inform about the next flights and confirm the departure, informing where and where to go to the airport.

Madagascar Support to Government

Country	Madagascar
Local Government Entity Supported	Ministry of Health / Ministry of Telecommunication
Are we supporting specific local communities and/or citizens within country as a whole?	Yes

Singapore Support to Government

Country	Singapore
Local Government Entity Supported	Enterprise Singapore (government agency championing enterprise development)
Are we supporting specific local communities and/or citizens within country as a whole?	
Project Name (if applicable)	
Country of delivery	
Start date	4th April till further notice
Time to implement (from notification/invocation to go-live - in days)	24 hours
Locations from where the project is run and/or managed (all, pls list)	
Hours of operation	8am to 8pm, 7 days a week
Type of service provided	TPSG is existing provider for ES hotlines handling government grants for SMEs (Small Medium Enterprises)
#number of agents (split between B&M and WAH):	
#number of agents (Bricks & Mortar)	
#number of agents (WAH)	30 licenses/seats. Gradually moved more to TPSG site as their environment was not conducive – 45 TPSG
How long is the training?	
Any Digital initiatives implemented or planned to implement?	
Is the service scripted (if only partially, please give a % scripted)	
Do we have a prior agreement in place?	
Are we providing any other government services that are linked in any way?	
Have we recruited from internal teams or externally, or both (please describe)	Volunteers from various govt agencies manning 4 hour shifts. Almost 120 volunteers turned up per day. Only Singaporeans are eligible to handle the calls. TPSG provided support staffing from IT, HR and Ops taking temperatures, teaching volunteers how to use Awaya system, etc.
	ES was tasked by the Ministry of Trade and Industry to setup an adhoc contact center to handle applications from business applying for exemption from the Circuit Breaker restrictions. As ES does not have an in-house contact center, they had to find a solution to setup this up within 24 hours.
Additional Notes	Avg Call Volumes: 4500 calls per day during initial period of 1 week
