Hi (10)(2e),

I'm so glad you will still be able to receive the samples. I'm hoping we will get a contract with you signed soon and then I will contact the sites to start shipping. I don't know what the situation is with each site so will need to find out if they are still able to ship the samples.

I will let you know when I have further updates.

Dear (10)(2e)

It is great to hear from you again.  
We are also extremely busy with Corona studies; we are now planning the third round of serosurvey among 7000 Dutch inhabitant of all ages.  
Fingerstick samples are measured with our Corona MIA.  
More corona work will come in late September, in winter, in spring etc.

Indeed, regular work has stopped abrupt and is now being taken up slowly.  
I have checked with everybody at the lab and we would be happy to receive the samples.  
We already had started with the preparations of the assay and are ready to get started.

I also see that the contract is almost ready to be signed.  
What is your schedule? Do we need more contracts first or are we ready to go ahead?

Regards,  
(10)(2e)
