Hi (10)(2e)

The webinar on SANITARY SIGNIFICANCE OF THE PRESENCE OF CORONAVIRUS IN SEWAGE , is organized by AIDIS (sanitary engineering interamerican) and the Sanitary Engineering Institute (Buenos Aires University) .Its objective is to update knowledge on the importance of the presence of Coronavirus in sewage, in terms of the health risks of the management of these liquids and for the general population, and its use as an epidemiological tool for localization of population infected with the virus

In this context, I would like you to propose to me the topics that you will address in your dissertations

AS TO THE DATE OF THE WEBINAR, initially scheduled for September 21, it would be September 29. Could be ?

Dear (10)(2e)

So long without hearing from youjj

I am preparing a webinar on the meaning and importance of COVID in sewage and I would like to invite you to participate as lecturer (20-30 min) . (10)(2e) will also participate.

Although my intention has been always to invite you to come personally to Argentina, in this case we couldn't do it but I hope we can do it soon.!

From (10)(2e) asked him about the term as I always used Feachem's definition.

For immature (unsporulated; non infectious) oocysts this period of time is the sporulation time. This is the time of maturation required for them to become infectious.

Subject: RE: WHO pathogen fact sheets

I agree with (10)(2e) latency is defined as the a period in which the infection is present in the host without producing overt symptoms. I have never heard it used in this context before

Best Wishes

Subject: Re: WHO pathogen fact sheets

This is a timely question since I'm thinking about the period of communicability as used in the template for the fact sheets. Isn't latency the period of time between exposure and period of communicability? In some cases the initiation of communicability could occur even before the onset of symptoms or the incubation period. Would something such as faecal-maturation-oral be suitable?

Cheers

Subject: Potential WHO pathogen fact sheet meeting at HRWM in Vienna

Dear all,

We are considering organizing a side meeting at the HRWM symposium (Vienna from 15-20 September) to discuss the fact sheets and make progress in finalising them. Please could you respond and let us know:

- a. If you plan to attend the symposium
- b. Your availability, especially 18,19,21 September

Many thanks,

(10)(2e)
