

We are therefore now kindly asking you to review the attached “*Overview of current EU/EEA and UK deployment and vaccination plans for COVID-19 vaccines dated 19 November*” and make sure that we are accurately describing your vaccination plans as they are now. We are all aware of that plans may/will change moving forward given all the uncertainties in particular both on the short-term and long-term safety and efficacy of the coming vaccines since all information we have so far is confined to press releases from two vaccine producers.

We highly appreciate your time and effort for checking that information on your country is correct in **text and tables**. Please respond to this e-mail that information is correct if it is or if you wish to suggest edits please do by returning an edited report. After confirming content is correct we would also appreciate that should there be updates in the different areas of the survey relevant up to 19 November, please also add information on such updates in the attached document and return it to us.

With kindest regards,

5.1.2e on behalf of the  
EU/EEA NITAG COLLABORATION SECRETARIAT
