H [REDACTED]

Happy to say we put in a new offer for continuation of [REDACTED]. Fingers crossed ECDC will accept it

With regard to the mutant SARS-CoV-2 (whatelse), please find attached our analysis that was accepted by virus evolution. We have a question: do you already have virus isolates with the mutation(s)? we are looking for those for our VNTs amongst others for the therapeutic convalescent plasma donor program that we have.

I hope you have and that you can share. Of course MTA, payment/arrangement shipment no problem at all.

Keep up the good work and stay safe, [REDACTED]
