General information

Components

The e-learning course "Focused inspection on COVID-19 prevention and control for resuming cruise ship voyages in the EU" is an **asynchronous self-paced short-course** consisting of the following components:

- Pre-reading material
- Recorded Webinar
- Exercises/short assignments
- Test

Course objective

The objective of the course is to support personnel at competent health authorities in EUMS to perform focused inspections on board cruise ships and ashore facilities, to review procedures and plans in order to ensure measures mentioned in the "Interim advice for restarting cruise ship operations after lifting restrictive measures in response to the COVID-19 pandemic" are met both by cruise ship operators and port authority.

Pre-reading material

We suggest reading the following materials before taking the course:

- [Interim advice for restarting cruise ship operations after lifting restrictive measures in response to the COVID-19 pandemic \(Version 1 - 30 June 2020\)](#)
- [Suggested procedures for cleaning and disinfection of ships during the COVID-19 pandemic \(Version 2 – 20/04/2020\)](#)
- [Advice for ship operators for preparedness and response to the outbreak of COVID-19 \(Version 3 – 20/02/2020\)](#)

Recorded Webinar

You will receive access to a narrated presentation that you will be able to view via the e-learning platform or download it to your computer for viewing.

Exercises/short assignments

Objective

It is compulsory to complete the Self Study Exercises/Short Assignments in order to receive your certificate.

The objective of the Self Study Exercises/ Short Assignments is to facilitate learning and assess the degree to which you have understood the key points of the webinar.

Duration

You will be allowed to make **one attempt per exercise**. No time limit.

Results

Once you will submit your assignment, you will receive the suggested answers.

The Self Study Exercises/Short Assignment will not be graded.

The completion of the exercises /short assignments will be considered in the certification of the training course.

You should finish each exercise out of 4 in order to view the next one.

Test

After the completion of the recorded webinar and the exercises/short assignments there will be a test.

It will include multiple choice questions covering the topics discussed in the pre-recorded webinar.

Asynchronous short e-learning course Course information for trainees

Objective

It is a tool to evaluate the degree that the learning objectives have been achieved. It will include multiple choice and short answer questions covering the topics discussed in the recorded webinar.

Duration

You will have a strict **1-hour** to complete the test, and there will be a timer in view on your screen. You must complete the test and click the submit button within the 1-hour window.

You will be allowed to make **five attempts**.

Results

The test will be graded. You will receive your marks immediately after completion of the test (clicking the submit button) and you will be able to review the correct answers. You will need to answer 80% of the questions correctly in order to pass the test.

Course Evaluation

At the end there will an evaluation questionnaire asking you to share with us your opinion regarding the asynchronous short course titled "Focused inspection on COVID-19 prevention and control for resuming cruise ship voyages in the EU".

Certification

A certificate of successful completion will be issued to participants who complete the Self Study Exercises/ Short Assessments and the successfully pass the test.
