**Onderwerp:** RE: Covid Testing + draft report first week

Thank you 5.1.2e

Luckely I was almost in complete quarantine since I arrived and I've been wearing a mask as much as possible. (over the last months I was with just my wife and we were getting used to live in isolation, only with vid calls for both work and family relations)

On top of that my hands have never been this clean with great thanks to the sanitizers at CPS, impossible to miss them!

However, to start wearing a mask after 4 full days of interaction with staff.... It is funny nobody mentioned this to me before?!

Hope you will have an excellent weekend and hope to talk to you Monday and meet you in person.

I am happy to be on your team and do not hesitate to give me additional tasks.... You'll hear me when it is too much ??

Please find a draft report of my first week/4 days here, I will not share this with others for the moment.

Best regards,

5.1.2e

**Onderwerp:** Covid Testing

Good afternoon 5.1.2e

I hope you're having a good week. In all of the busyness, I forgot to mention that as a precaution for any incoming support, we require COVID testing upon arrival/start at CPS. I know that you have already been tested in the Netherlands, so there is no need for retest.

Due to the fact that you are essential/front line support, we will waive the quarantine period, however, we ask that when interacting with staff that you wear a mask for the next two weeks. We also ask that when not at work, you quarantine until your 2-week period is over.

I apologize for the oversight and hope that you understand that we are doing our utmost to protect everyone at CPS- yourself included :)

I have attached our protocol which has been shared with all incoming support staff. If you have any questions, please do not hesitate to let me know.

Regards,

5.1.2e
