

UMC Utrecht diagnostic pipeline

Completely re-designed diagnostic pipeline

Consortium: Hubrecht Institute, Genmab, UMC Utrecht, SCD, DSM, Sopachem

Fully validated assay with much higher testing capacity for a lower price!

- Fully validated assay (qPCR), so little uncertainties during development
- All reagents produced locally (or supply of >50K per day confirmed)
- Fully automated sample tracking
- No safety/contamination issues
- Much cheaper than current qPCR assay (~80% less personal, small volumes, no "kits", reagents locally sourced))

Benodigdheden, concreet:

➤ NU:

- Begrip of er wel/niet al geïnvesteerd wordt in dergelijke initiatieven

➤ SNEL:

- Financiële ondersteuning (investeringspropositie volgt)
- Hulp bij inbedding in Diagnostiek Nederland
 - Patienten swabs voor validatie test-straat
 - Kennis
 - Keuze locatie centra
 - Registratie en accreditatie van test
