Subject: RE: Survey on tests for COVID-19: additional question
Received: Wed 5/27/2020 9:35:46 AM

Dear HSC Secretariat,

Thank you for sharing the results of the survey. Please find our answer to the additional question below:

Currently, the Netherlands is not envisioning to conduct (asymptomatic) mass testing. However, a team of Dutch experts will be requested to advise on the potential benefits of asymptomatic testing for specific population groups. Testing will be available to everyone with COVID-related symptoms from the 1st of June (symptomatic).

Warm regards,

(10)(2e); (10)(2e)

Onderwerp: Survey on tests for COVID-19: additional question

Dear members of the Health Security Committee,

Dear colleagues,

Following the short survey on tests for COVID-19 that was carried out a few weeks ago, we are now circulating the table attached with answers received for any further feedback/comments.

We are also adding an additional question, raised during a recent HSC meeting:

3. What is your country's approach regarding mass testing?

We would be very grateful for your answers by **tomorrow 14:00** (CEST).

Thank you in advance for your contributions.

Kind regards,

HSC Secretariat
