As requested, here is the Management Summary of our pentest report on the Coronamelder. (See attached PDF). I hope that it arrived in time for the 6 PM vote in the Tweede Kamer. Please do keep in mind that we'll continue polishing the text in the actual pentest report, which we'll deliver by today EOD, as we had agreed.

Thanks!
Melanie

Yes there is a letter that has to go to parliament. Really just the management summary.

Hi (10)(2e)

when you say urgency. Do you mean before EOD today? Or do you mean anything today is still fine.

In any case we will work on it.

Yours,
(10)(2e)

Hi,

Could you with some urgency deliver a management summary? That is really needed for parliament. The full report will be made available next week so that my report can give some context.

Yours,

(10)(2e)
