Dear all,

The talks with FDI on the elaboration of the purchase agreement including agreements on safeguarding of public interests and the agreements in the MOU with the WHO, are still ongoing.
 Due to the current corona situation, we are also looking at how cooperation in the field of vaccine development and production can be designed for the longer term in the Netherlands.

Finally, now that this situation has been going on for some time, we would like to propose that the previously planned meeting with the new CEO Intravacc, (10)(2e), take place after all, but then by video conference. Do you think that's a good idea?

Kind regards,

(10)(2e)
