On behalf of (10)(2a) we would like to revise upwards the volume of this vaccine: increase from 3mio doses to 9mio doses (also to include elderly and medical risk groups - in addition to healthcare and social care personnel).

If other MS also increase volumes, we can obtain a much better price and secure earlier access.

Despite negotiation challenges I encourage our (10)(2a) colleagues to continue the discussions. It is important for Europe to get access to this vaccine.
