Geachte mevrouw (10)(2e)
Net nadat ik gisteren mijn email naar u verstuurd had kwam onderstaand bericht binnen van (10)(2e)
Hierin spreekt hij WHO's voorkeur uit voor steun in de richting van de Workstream Access & Allocation getrokken door (10)(2e)

met vriendelijke groet,

(10)(2e)

Dear (10)(2e)

Thank you so much for your help!

I can confirm that (10)(2e) is working with our team to finalize a summary of WHO roles/needs in ACT-A from a financing perspective – it will be submitted within the coming days.

Re potential secondment help, I would suggest that rather than send new staffing/secondment suggestions in other areas, we focus on the area you are already in discussion with (10)(2e) on, as she leads the Access & Allocation Workstream which covers the area of LMICs access that is of particular interest to the Netherlands.

Huge thanks again for your role as we try to catch up. Really appreciated.

Very best

Warmly,

(10)(2e)

Dear (10)(2e)

Referring to our phone call yesterday, it's my understanding that you will now inform Mrs (10)(2e) to follow up with the Dutch on their interest to support the WHO's ACT Accelerator.

You'd also ask her to request profiles/job descriptions for secondment from WHO leads of the Pillars Vaccines, Therapeutics, Diagnostics and the Workstream Access and Acceleration.

The Dutch specific interest is to support WHO activities in access to Covid-tools in LMIC's.

For your information: already 2 job descriptions for level P4 secondments (for 2 years each) have meanwhile been submitted to the Dutch MoH from Dr (10)(2e) Access Department.

I'll stop now for the moment "chasing you", but to ensure optimal synchronization or the lines of communication between WHO and the Dutch MoH, I'd appreciate to receive a c.c. of your message to Mrs (10)(2e)

Kind regards

(10)(2e)

Hi (10)(2e)

Revised 'immediate priority for 2020' budget is (10)(2b)

Please make sure to include the footnote in the first line item (!)

Thanks,

(10)(2e)

Hi (10)(2e)

I think I might have misspoke in the budget piece. We need a clear statement on this that it is 'immediate priority for 2020' (as not everything is there) and I'd suggest we include the full amounts for the Vx policy/guidance & Delivery pieces, the full Norm/Standard piece under Vx and (10)(2b) of that 3rd ST bucket.

This will bump the budget by about (10)(2b)

Dear (10)(2e)

Here attached including the budget number and table – note we've included only the ask for 2020. These numbers reflect what the pillar teams have produced to date, but they remain pretty sketchy.

Please tweak and pretty up as you see fit.

With thanks for your patience,

(10)(2e)

Re the (10)(2a) 2-pager, please find attached (and with huge apologies for the delay) – I’ve gone through the text and edited/updated and reorganized a bit.

Thx in advance for tomorrow doing a read through and dropping in the ‘immediate resources requirements’ as discussed this evening. I also have a further thought re how to reflect the conditionality of the additional vaccine trial resourcing if that were to go ahead.

Have cc’d (10)(2e) so that she know (a) its my fault we are late, and (b) that this actually exists....

Very best,

(10)(2e)

PS – huge thx to (10)(2e) for the BMG language that we could build from.
